<p>Prior to holding a securitisation position, an institutional investor, other than the originator, sponsor or original lender, shall verify that:</p> <ul style="list-style-type: none"> where the originator or original lender established in the Union is not a credit institution or an investment firm as defined in points (1) and (2) of Article 4(1) of Regulation (EU) No 575/2013, the originator or original lender grants all the credits giving rise to the underlying exposures on the basis of sound and well-defined criteria and clearly established processes for approving, amending, renewing and financing those credits and has effective systems in place to apply those criteria and processes in accordance with Article 9(1) of this Regulation; where the originator or original lender is established in a third country, the originator or original lender grants all the credits giving rise to the underlying exposures on the basis of sound and well-defined criteria and clearly established processes for approving, amending, renewing and financing those credits and has effective systems in place to apply those criteria and processes to ensure that credit-granting is based on a thorough assessment of the obligor's creditworthiness; if established in the Union, the originator, sponsor or original lender retains on an ongoing basis a material 		

lender retains on an ongoing basis a material net economic interest in accordance with Article 6 and the risk retention is disclosed to the institutional investor in accordance with Article 7;

- if established in a third country, the originator, sponsor or original lender retains on an ongoing basis a material net economic interest which, in any event, shall not be less than 5 %, determined in accordance with Article 6, and discloses the risk retention to institutional investors;
- the originator, sponsor or SSPE has, where applicable, made available the information required by Article 7 in accordance with the frequency and modalities provided for in that Article;

By derogation from paragraph 1, as regards fully supported ABCP transactions, the requirement specified in point (a) of paragraph 1 shall apply to the sponsor. In such cases, the sponsor shall verify that the originator or original lender which is not a credit institution or an investment firm grants all the credits giving rise to the underlying exposures on the basis of sound and well-defined criteria and clearly established processes for approving, amending, renewing and financing those credits and has effective systems in place to apply those criteria and processes in accordance with Article 9(1).

Prior to holding a securitisation position, an institutional investor, other than the originator, sponsor or original lender, shall carry out a due-diligence assessment which enables it to assess the risks involved. That assessment shall consider at least all of the following:

- the risk characteristics of the individual securitisation position and of the underlying exposures;
- all the structural features of the securitisation that can materially impact the performance of the securitisation position, including the contractual priorities of payment and priority of payment-related triggers, credit enhancements, liquidity enhancements, market value triggers, and transaction-specific definitions of default;
- with regard to a securitisation notified as STS in accordance with Article 27, the compliance of that securitisation with the requirements provided for in Articles 19 to 22 or in Articles 23 to 26, and Article 27.

Institutional investors may rely to an appropriate extent on the STS notification pursuant to Article 27(1) and on the information disclosed by the originator, sponsor and SSPE on the compliance with the STS requirements, without solely or mechanistically relying on that notification or information.

Notwithstanding points (a) and (b) of the first subparagraph, in the case of a fully supported ABCP programme, institutional investors in the commercial paper issued by that ABCP programme shall consider the features of the ABCP programme and the full liquidity support.

An institutional investor, other than the originator, sponsor or original lender, holding a securitisation position, shall at least:

- establish appropriate written procedures that are proportionate to the risk profile of the securitisation position and, where relevant, to the institutional investor's trading and non-trading book, in order to monitor, on an ongoing basis, compliance with paragraphs 1 and 3 and the performance of the securitisation position and of the underlying exposures.

Where relevant with respect to the securitisation and the underlying exposures

securitisation and the underlying exposures, those written procedures shall include monitoring of the exposure type, the percentage of loans more than 30, 60 and 90 days past due, default rates, prepayment rates, loans in foreclosure, recovery rates, repurchases, loan modifications, payment holidays, collateral type and occupancy, and frequency distribution of credit scores or other measures of credit worthiness across underlying exposures, industry and geographical diversification, frequency distribution of loan to value ratios with band widths that facilitate adequate sensitivity analysis. Where the underlying exposures are themselves securitisation positions, as permitted under Article 8, institutional investors shall also monitor the exposures underlying those positions;

- in the case of a securitisation other than a fully supported ABCP programme, regularly perform stress tests on the cash flows and collateral values supporting the underlying exposures or, in the absence of sufficient data on cash flows and collateral values, stress tests on loss assumptions, having regard to the nature, scale and complexity of the risk of the securitisation position;
- in the case of fully supported ABCP programme, regularly perform stress tests on the solvency and liquidity of the sponsor;
- ensure internal reporting to its management body so that the management body is aware of the material risks arising from the securitisation position and so that those risks are adequately managed;
- be able to demonstrate to its competent authorities, upon request, that it has a comprehensive and thorough understanding of the securitisation position and its underlying exposures and that it has implemented written policies and procedures for the risk management of the securitisation position and for maintaining records of the verifications and due diligence in accordance with paragraphs 1 and 2 and of any other relevant information;
- in the case of exposures to a fully supported ABCP programme, be able to demonstrate to its competent authorities, upon request, that it has a comprehensive and thorough understanding of the credit quality of the sponsor and of the terms of the liquidity facility provided.

Without prejudice to paragraphs 1 to 4 of this Article, where an institutional investor has given another institutional investor authority to make investment management decisions that might expose it to a securitisation, the institutional investor may instruct that managing party to fulfil its obligations under this Article in respect of any exposure to a securitisation arising from those decisions. Member States shall ensure that, where an institutional investor is instructed under this paragraph to fulfil the obligations of another institutional investor and fails to do so, any sanction under Articles 32 and 33 may be imposed on the managing party and not on the institutional investor who is exposed to the securitisation.

The originator, sponsor or original lender of a securitisation shall retain on an ongoing basis a material net economic interest in the securitisation of not less than 5 %. That interest shall be measured at the origination and shall be determined by the notional value for off-balance-sheet items. Where the originator, sponsor or original lender have not agreed between them who will retain

the material net economic interest, the originator shall retain the material net economic interest. There shall be no multiple applications of the retention requirements for any given securitisation. The material net economic interest shall not be split amongst different types of retainers and not be subject to any credit-risk mitigation or hedging.

For the purposes of this Article, an entity shall not be considered to be an originator where the entity has been established or operates for the sole purpose of securitising exposures.

Originators shall not select assets to be transferred to the SSPE with the aim of rendering losses on the assets transferred to the SSPE, measured over the life of the transaction, or over a maximum of 4 years where the life of the transaction is longer than four years, higher than the losses over the same period on comparable assets held on the balance sheet of the originator. Where the competent authority finds evidence suggesting contravention of that prohibition, the competent authority shall investigate the performance of assets transferred to the SSPE and comparable assets held on the balance sheet of the originator. If the performance of the transferred assets is significantly lower than that of the comparable assets held on the balance sheet of the originator as a consequence of the intent of the originator, the competent authority shall impose a sanction pursuant to Articles 32 and 33.

Only the following shall qualify as a retention of a material net economic interest of not less than 5 % within the meaning of paragraph 1:

- the retention of not less than 5 % of the nominal value of each of the tranches sold or transferred to investors;
- in the case of revolving securitisations or securitisations of revolving exposures, the retention of the originator's interest of not less than 5 % of the nominal value of each of the securitised exposures;
- the retention of randomly selected exposures, equivalent to not less than 5 % of the nominal value of the securitised exposures, where such non-securitised exposures would otherwise have been securitised in the securitisation, provided that the number of potentially securitised exposures is not less than 100 at origination;
- the retention of the first loss tranche and, where such retention does not amount to 5 % of the nominal value of the securitised exposures, if necessary, other tranches having the same or a more severe risk profile than those transferred or sold to investors and not maturing any earlier than those transferred or sold to investors, so that the retention equals in total not less than 5 % of the nominal value of the securitised exposures; or
- the retention of a first loss exposure of not less than 5 % of every securitised exposure in the securitisation.

Where a mixed financial holding company established in the Union within the meaning of Directive 2002/87/EC of the European Parliament and of the Council Directive 2002/87/EC of the European Parliament and of the Council of 16 December 2002 on the supplementary supervision of credit institutions, insurance undertakings and investment firms in a financial conglomerate and amending Council Directives 73/239/EEC, 79/267/EEC, 92/49/EEC, 92/96/EEC, 93/6/EEC and 93/22/EEC, and Directives 98/78/EC and 2000/12/EC of the

European Parliament and of the Council (OJ L 35, 11.2.2003, p. 1)., a parent institution or a financial holding company established in the Union, or one of its subsidiaries within the meaning of Regulation (EU) No 575/2013, as an originator or sponsor, securitises exposures from one or more credit institutions, investment firms or other financial institutions which are included in the scope of supervision on a consolidated basis, the requirements referred to in paragraph 1 may be satisfied on the basis of the consolidated situation of the related parent institution, financial holding company, or mixed financial holding company established in the Union.

The first subparagraph shall apply only where credit institutions, investment firms or financial institutions which created the securitised exposures comply with the requirements set out in Article 79 of Directive 2013/36/EU of the European Parliament and of the Council Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, amending Directive 2002/87/EC and repealing Directives 2006/48/EC and 2006/49/EC (OJ L 176, 27.6.2013, p. 338).

and deliver the information needed to satisfy the requirements provided for in Article 5 of this Regulation, in a timely manner, to the originator or sponsor and to the Union parent credit institution, financial holding company or mixed financial holding company established in the Union.

- Paragraph 1 shall not apply where the securitised exposures are exposures on or exposures fully, unconditionally and irrevocably guaranteed by:
 - central governments or central banks;
 - regional governments, local authorities and public sector entities within the meaning of point (8) of Article 4(1) of Regulation (EU) No 575/2013 of Member States;
 - institutions to which a 50 % risk weight or less is assigned under Part Three, Title II, Chapter 2 of Regulation (EU) No 575/2013;
 - national promotional banks or institutions within the meaning of point (3) of Article 2 of Regulation (EU) 2015/1017 of the European Parliament and of the Council Regulation (EU) 2015/1017 of the European Parliament and of the Council of 25 June 2015 on the European Fund for Strategic Investments, the European Investment Advisory Hub and the European Investment Project Portal and amending Regulations (EU) No 1291/2013 and (EU) No 1316/2013 of the European Fund for Strategic Investments (OJ L 169, 1.7.2015, p. 1).; or
 - the multilateral development banks listed in Article 117 of Regulation (EU) No 575/2013.

Paragraph 1 shall not apply to transactions based on a clear, transparent and accessible index, where the underlying reference entities are identical to those that make up an index of entities that is widely traded, or are other tradable securities other than securitisation positions.

Decision No 716/2009/EC and repealing Commission Decision 2009/79/EC (OJ L 331, 15.12.2010, p. 48)., shall develop draft regulatory technical standards to specify in greater detail the risk-retention requirement, in particular with regard to:

- the modalities for retaining risk pursuant to paragraph 3, including the fulfilment through a synthetic or contingent form of retention;
- the measurement of the level of retention referred to in paragraph 1;
- the prohibition of hedging or selling the retained interest;
- the conditions for retention on a consolidated basis in accordance with paragraph 4;
- the conditions for exempting transactions based on a clear, transparent and accessible index referred to in paragraph 6;

The EBA shall submit those draft regulatory technical standards to the Commission by 18 July 2018. The Commission is empowered to supplement this Regulation by adopting the regulatory technical standards referred to in this paragraph in accordance with Articles 10 to 14 of Regulation (EU) No 1093/2010.

The originator, sponsor and SSPE of a securitisation shall, in accordance with paragraph 2 of this Article, make at least the following information available to holders of a securitisation position, to the competent authorities referred to in Article 29 and, upon request, to potential investors:

- information on the underlying exposures on a quarterly basis, or, in the case of ABCP, information on the underlying receivables or credit claims on a monthly basis;
- all underlying documentation that is essential for the understanding of the transaction, including but not limited to, where applicable, the following documents:

- the final offering document or the prospectus together with the closing transaction documents, excluding legal opinions;
- for traditional securitisation the asset sale agreement, assignment, novation or transfer agreement and any relevant declaration of trust;
- the derivatives and guarantee agreements, as well as any relevant documents on collateralisation arrangements where the exposures being securitised remain exposures of the originator;
- the servicing, back-up servicing, administration and cash management agreements;
- the trust deed, security deed, agency agreement, account bank agreement, guaranteed investment contract, incorporated terms or master trust framework or master definitions agreement or such legal documentation with equivalent legal value;
- any relevant inter-creditor agreements, derivatives documentation, subordinated loan agreements, start-up loan agreements and liquidity facility agreements;

That underlying documentation shall include a detailed description of the priority of payments of the securitisation; where a prospectus has not been drawn up in compliance with Directive 2003/71/EC of the European Parliament and of the Council Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003 on the prospectus to be published when securities are offered to the public or admitted to trading and amending Directive 2001/34/EC

(OJ L 345, 31.12.2003, p. 64)., a transaction summary or overview of the main features of the securitisation, including, where applicable:

- details regarding the structure of the deal, including the structure diagrams containing an overview of the transaction, the cash flows and the ownership structure;
- details regarding the exposure characteristics, cash flows, loss waterfall, credit enhancement and liquidity support features;
- details regarding the voting rights of the holders of a securitisation position and their relationship to other secured creditors;
- a list of all triggers and events referred to in the documents provided in accordance with point (b) that could have a material impact on the performance of the securitisation position;

in the case of STS securitisations, the STS notification referred to in Article 27;

- quarterly investor reports, or, in the case of ABCP, monthly investor reports, containing the following:

- all materially relevant data on the credit quality and performance of underlying exposures;
- information on events which trigger changes in the priority of payments or the replacement of any counterparties, and, in the case of a securitisation which is not an ABCP transaction, data on the cash flows generated by the underlying exposures and by the liabilities of the securitisation;
- information about the risk retained, including information on which of the modalities provided for in Article 6(3) has been applied, in accordance with Article 6.

any inside information relating to the securitisation that the originator, sponsor or SSPE is obliged to make public in accordance with Article 17 of Regulation (EU) No 596/2014 of the European Parliament and of the Council Regulation (EU) No 596/2014 of the European Parliament and of the Council of 16 April 2014 on market abuse (market abuse regulation) and repealing Directive 2003/6/EC of the European Parliament and of the Council and Commission Directives 2003/124/EC, 2003/125/EC and 2004/72/EC (OJ L 173, 12.6.2014, p. 1). on insider dealing and market manipulation;

- where point (f) does not apply, any significant event such as:

- a material breach of the obligations provided for in the documents made available in accordance with point (b), including any remedy, waiver or consent subsequently provided in relation to such a breach;
- a change in the structural features that can materially impact the performance of the securitisation;
- a change in the risk characteristics of the securitisation or of the underlying exposures that can materially impact the performance of the securitisation;
- in the case of STS securitisations, where the securitisation ceases to meet the STS requirements or where competent authorities have taken remedial or administrative actions;
- any material amendment to transaction documents.

The information described in points (b), (c) and (d) of the first subparagraph shall be made available before pricing.

The information described in points (a) and (e) of the first subparagraph shall be made available simultaneously each quarter at the latest one month after the due date for the payment of interest or, in the case of ABCP transactions, at the latest one month after the end of the period

the report covers. In the case of ABCP, the information described in points (a), (c)(ii) and (e) (i) of the first subparagraph shall be made available in aggregate form to holders of securitisation positions and, upon request, to potential investors. Loan-level data shall be made available to the sponsor and, upon request, to competent authorities. Without prejudice to Regulation (EU) No 596/2014, the information described in points (f) and (g) of the first subparagraph shall be made available without delay. When complying with this paragraph, the originator, sponsor and SSPE of a securitisation shall comply with national and Union law governing the protection of confidentiality of information and the processing of personal data in order to avoid potential breaches of such law as well as any confidentiality obligation relating to customer, original lender or debtor information, unless such confidential information is anonymised or aggregated. In particular, with regard to the information referred to in point (b) of the first subparagraph, the originator, sponsor and SSPE may provide a summary of the documentation concerned. Competent authorities referred to in Article 29 shall be able to request the provision of such confidential information to them in order to fulfil their duties under this Regulation.

The originator, sponsor and SSPE of a securitisation shall designate amongst themselves one entity to fulfil the information requirements pursuant to points (a), (b), (d), (e), (f) and (g) of the first subparagraph of paragraph 1. The entity designated in accordance with the first subparagraph shall make the information for a securitisation transaction available by means of a securitisation repository. The obligations referred to in the second and fourth subparagraphs shall not apply to securitisations where no prospectus has to be drawn up in compliance with Directive 2003/71/EC.

Where no securitisation repository is registered in accordance with Article 10, the entity designated to fulfil the requirements set out in paragraph 1 of this Article shall make the information available by means of a website that:

- includes a well-functioning data quality control system;
- is subject to appropriate governance standards and to maintenance and operation of an adequate organisational structure that ensures the continuity and orderly functioning of the website;
- is subject to appropriate systems, controls and procedures that identify all relevant sources of operational risk;
- includes systems that ensure the protection and integrity of the information received and the prompt recording of the information; and
- makes it possible to keep record of the information for at least five years after the maturity date of the securitisation.

The entity responsible for reporting the information, and the securitisation repository where the information is made available shall be indicated in the documentation regarding the securitisation.

ESMA, in close cooperation with the EBA and EIOPA, shall develop draft regulatory technical standards to specify the information that the originator, sponsor and SSPE shall provide in order to comply with their obligations under points (a) and (e) of the first subparagraph of paragraph 1 taking into account the usefulness of information for the

holder of the securitisation position, whether the securitisation position is of a short-term nature and, in the case of an ABCP transaction, whether it is fully supported by a sponsor;

ESMA shall submit those draft regulatory technical standards to the Commission by 18 January 2019.
The Commission is empowered to supplement this Regulation by adopting the regulatory technical standards referred to in this paragraph in accordance with Articles 10 to 14 of Regulation (EU) No 1095/2010. In order to ensure uniform conditions of application for the information to be specified in accordance with paragraph 3, ESMA, in close cooperation with the EBA and EIOPA, shall develop draft implementing technical standards specifying the format thereof by means of standardised templates.
ESMA shall submit those draft implementing technical standards to the Commission by 18 January 2019.
The Commission is empowered to adopt the implementing technical standards referred to in this paragraph in accordance with Article 15 of Regulation (EU) No 1095/2010.

Originators, sponsors and original lenders shall have effective systems in place to apply those criteria and processes in order to ensure that credit-granting is based on a thorough assessment of the obligor's creditworthiness taking appropriate account of factors relevant to verifying the prospect of the obligor meeting his obligations under the credit agreement.</p> <p>Where the underlying exposures of securitisations are residential loans made after the entry into force of Directive 2014/17/EU, the pool of those loans shall not include any loan that is marketed and underwritten on the premise that the loan applicant or, where applicable, intermediaries were made aware that the information provided by the loan applicant might not be verified by the lender.</p> <p>Where an originator purchases a third party's exposures for its own account and then securitises them, that originator shall verify that the entity which was, directly or indirectly, involved in the original agreement which created the obligations or potential obligations to be securitised fulfils the requirements referred to in paragraph 1.</p> <p>Paragraph 3 does not apply if:</p> <ul style="list-style-type: none"> the original agreement, which created the obligations or potential obligations of the debtor or potential debtor, was entered into before the entry into force of Directive 2014/17/EU; and the originator that purchases a third party's exposures for its own account and then securitises them meets the obligations that originator institutions were required to meet under Article 21(2) of Delegated Regulation (EU) No 625/2014 before 1 January 2019. A securitisation repository shall register with ESMA for the purposes of Article 5 under the conditions and the procedure set out in this Article.

To be eligible to be registered under this Article, a securitisation repository shall be a legal person established in the Union, apply procedures to verify the completeness and consistency of the information made available to it under Article 7(1) of this Regulation, and meet the requirements provided for in Articles 78, 79 and 80(1) to (3), (5) and (6) of Regulation (EU) No 648/2012. For the purposes of this Article, references in Articles 78 and 80 of Regulation (EU) No 648/2012 to Article 9 thereof shall be construed as references to Article 5 of this Regulation.

The registration of a securitisation repository shall be effective for the entire territory of the Union.

A registered securitisation repository shall comply at all times with the conditions for registration. A securitisation repository shall, without undue

delay, notify ESMA of any material changes to the conditions for registration.

A securitisation repository shall submit to ESMA either of the following:

- an application for registration;
- an application for an extension of registration for the purposes of Article 7 of this Regulation in the case of a trade repository already registered under Chapter 1 of Title VI of Regulation (EU) No 648/2012 or under Chapter III of Regulation (EU) 2015/2365 of the European Parliament and of the Council Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 (OJ L 337, 23.12.2015, p. 1).

ESMA shall assess whether the application is complete within 20 working days of receipt of the application.

Where the application is not complete, ESMA shall set a deadline by which the securitisation repository is to provide additional information.

After having assessed an application as complete, ESMA shall notify the securitisation repository accordingly.

In order to ensure consistent application of this Article, ESMA shall develop draft regulatory technical standards specifying the details of all of the following:

- the procedures referred to in paragraph 2 of this Article which are to be applied by securitisation repositories in order to verify the completeness and consistency of the information made available to them under Article 7(1);
- the application for registration referred to in point (a) of paragraph 5;
- a simplified application for an extension of registration referred to in point (b) of paragraph 5.

ESMA shall submit those draft regulatory technical standards to the Commission by 18 January 2019.

The Commission is empowered to supplement this Regulation by adopting the regulatory technical standards referred to in this paragraph in accordance with Articles 10 to 14 of Regulation (EU) No 1095/2010.

In order to ensure uniform conditions of application of paragraphs 1 and 2, ESMA shall develop draft implementing technical standards specifying the format of both of the following:

- the application for registration referred to in point (a) of paragraph 5;
- the application for an extension of registration referred to in point (b) of paragraph 5.

With regard to point (b) of the first subparagraph, ESMA shall develop a simplified

it was concluded within a certain period before the declaration of the seller's insolvency;

- provisions where the SSPE can only prevent the invalidation referred to in point (a) if it can prove that it was not aware of the insolvency of the seller at the time of sale.

- For the purpose of paragraph 1, clawback provisions in national insolvency laws that allow the liquidator or a court to invalidate the sale of underlying exposures in the case of fraudulent transfers, unfair prejudice to creditors or transfers intended to improperly favour particular creditors over others shall not constitute severe clawback provisions.
- Where the seller is not the original lender, the true sale or assignment or transfer with the same legal effect of the underlying exposures to that seller, whether that true sale or assignment or transfer with the same legal effect is direct or through one or more intermediate steps, shall meet the requirements set out in paragraphs 1 to 3.
- Where the transfer of the underlying exposures is performed by means of an assignment and perfected at a later stage than at the closing of the transaction, the triggers to effect such perfection shall include at least the following events:

 - severe deterioration in the seller credit quality standing;
 - insolvency of the seller; and
 - unremedied breaches of contractual obligations by the seller, including the seller's default.

The seller shall provide representations and warranties that, to the best of its knowledge, the underlying exposures included in the securitisation are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect. The underlying exposures transferred from, or assigned by, the seller to the SSPE shall meet predetermined, clear and documented eligibility criteria which do not allow for active portfolio management of those exposures on a discretionary basis. For the purpose of this paragraph, substitution of exposures that are in breach of representations and warranties shall not be considered active portfolio management. Exposures transferred to the SSPE after the closing of the transaction shall meet the eligibility criteria applied to the initial underlying exposures. The securitisation shall be backed by a pool of underlying exposures that are homogeneous in terms of asset type, taking into account the specific characteristics relating to the cash flows of the asset type including their contractual, credit-risk and prepayment characteristics. A pool of underlying exposures shall comprise only one asset type. The underlying exposures shall contain obligations that are contractually binding and enforceable, with full recourse to debtors and, where applicable, guarantors.
The underlying exposures shall have defined

periodic payment streams, the instalments of which may differ in their amounts, relating to rental, principal, or interest payments, or to any other right to receive income from assets supporting such payments. The underlying exposures may also generate proceeds from the sale of any financed or leased assets.

The underlying exposures shall not include transferable securities, as defined in point (44) of Article 4(1) of Directive 2014/65/EU, other than corporate bonds that are not listed on a trading venue.

The underlying exposures shall not include any securitisation position.

The underlying exposures shall be originated in the ordinary course of the originator's or original lender's business pursuant to underwriting standards that are no less stringent than those that the originator or original lender applied at the time of origination to similar exposures that are not securitised. The underwriting standards pursuant to which the underlying exposures are originated and any material changes from prior underwriting standards shall be fully disclosed to potential investors without undue delay.

In the case of securitisations where the underlying exposures are residential loans, the pool of loans shall not include any loan that was marketed and underwritten on the premise that the loan applicant or, where applicable, intermediaries were made aware that the information provided might not be verified by the lender.

The assessment of the borrower's

creditworthiness shall meet the requirements set out in Article 8 of Directive 2008/48/EC or paragraphs 1 to 4, point (a) of paragraph 5, and paragraph 6 of Article 18 of Directive 2014/17/EU or, where applicable, equivalent requirements in third countries.

The originator or original lender shall have expertise in originating exposures of a similar nature to those securitised.

The underlying exposures shall be transferred to the SSPE after selection without undue delay and shall not include, at the time of selection, exposures in default within the meaning of Article 178(1) of Regulation (EU) No 575/2013 or exposures to a credit-impaired debtor or guarantor, who, to the best of the originator's or original lender's knowledge:

- has been declared insolvent or had a court grant his creditors a final non-appealable right of enforcement or material damages as a result of a missed payment within three years prior to the date of origination or has undergone a debt-restructuring process with regard to his non-performing exposures within three years prior to the date of transfer or assignment of the underlying exposures to the SSPE, except if:
- a restructured underlying exposure has not presented new arrears since the date of the restructuring, which must have taken place at least one year prior to the date of transfer or assignment of the underlying exposures to the SSPE; and
- the information provided by the originator, sponsor and SSPE in accordance with points

...secured with points (a) and (e)(i) of the first subparagraph of Article 7(1) explicitly sets out the proportion of restructured underlying exposures, the time and details of the restructuring as well as their performance since the date of the restructuring;

was, at the time of origination, where applicable, on a public credit registry of persons with adverse credit history or, where there is no such public credit registry, another credit registry that is available to the originator or original lender; or

has a credit assessment or a credit score indicating that the risk of contractually agreed payments not being made is significantly higher than for comparable exposures held by the originator which are not securitised.

The debtors shall, at the time of transfer of the exposures, have made at least one payment, except in the case of revolving securitisations backed by exposures payable in a single instalment or having a maturity of less than one year, including without limitation monthly payments on revolving credits.

The repayment of the holders of the securitisation positions shall not have been structured to depend predominantly on the sale of assets securing the underlying exposures. This shall not prevent such assets from being subsequently rolled-over or refinanced.

The repayment of the holders of the securitisation positions whose underlying exposures are secured by assets the value of which is guaranteed or fully mitigated by a repurchase obligation

Requirements for simple, transparent and standardised non-ABCP securitisation

SECTION 1

repurchase obligation by the seller of the assets securing the underlying exposures or by another third party shall not be considered to depend on the sale of assets securing those underlying exposures.

The EBA, in close cooperation with ESMA and EIOPA, shall develop draft regulatory technical standards further specifying which underlying exposures referred to in paragraph 8 are deemed to be homogeneous.

The EBA shall submit those draft regulatory technical standards to the Commission by 18 July 2018.

The Commission is empowered to supplement this Regulation by adopting the regulatory technical standards referred to in this paragraph in accordance with Articles 10 to 14 of Regulation (EU) No 1093/2010.

The originator, sponsor or original lender shall satisfy the risk-retention requirement in accordance with Article 6.

The interest-rate and currency risks arising from the securitisation shall be appropriately mitigated and any measures taken to that effect shall be disclosed. Except for the purpose of hedging interest-rate or currency risk, the SSPE shall not enter into derivative contracts and shall ensure that the pool of underlying exposures does not include derivatives. Those derivatives shall be underwritten and documented according to common standards in international finance.

Any referenced interest payments under the securitisation assets

securitisation assets and liabilities shall be based on generally used market interest rates, or generally used sectoral rates reflective of the cost of funds, and shall not reference complex formulae or derivatives.

Where an enforcement or an acceleration notice has been delivered:

- no amount of cash shall be trapped in the SSPE beyond what is necessary to ensure the operational functioning of the SSPE or the orderly repayment of investors in accordance with the contractual terms of the securitisation, unless exceptional circumstances require that an amount be trapped to be used, in the best interests of investors, for expenses in order to avoid the deterioration in the credit quality of the underlying exposures;
- principal receipts from the underlying exposures shall be passed to investors via sequential amortisation of the securitisation positions, as determined by the seniority of the securitisation position;
- repayment of the securitisation positions shall not be reversed with regard to their seniority; and
- no provisions shall require automatic liquidation of the underlying exposures at market value.

Transactions which feature non-sequential priority of payments shall include triggers relating to the performance of the underlying exposures resulting in the priority of payments reverting to sequential payments in order of seniority. Such performance-related triggers shall include

at least the deterioration in the credit quality of the underlying exposures below a predetermined threshold.

The transaction documentation shall include appropriate early amortisation provisions or triggers for termination of the revolving period where the securitisation is a revolving securitisation, including at least the following:

- a deterioration in the credit quality of the underlying exposures to or below a predetermined threshold;
- the occurrence of an insolvency-related event with regard to the originator or the servicer;
- the value of the underlying exposures held by the SSPE falls below a predetermined threshold (early amortisation event); and
- a failure to generate sufficient new underlying exposures that meet the predetermined credit quality (trigger for termination of the revolving period).

The transaction documentation shall clearly specify:

- the contractual obligations, duties and responsibilities of the servicer and the trustee, if any, and other ancillary service providers;
- the processes and responsibilities necessary to ensure that a default by or an insolvency of the servicer does not result in a termination of servicing, such as a contractual provision which enables the replacement of the servicer in such cases; and
- provisions that ensure the replacement of derivative counterparties, liquidity providers and

Requirements relating to standardisation

the account bank in the case of their default, insolvency, and other specified events, where applicable.

The servicer shall have expertise in servicing exposures of a similar nature to those securitised and shall have well-documented and adequate policies, procedures and risk-management controls relating to the servicing of exposures.

The transaction documentation shall set out in clear and consistent terms definitions, remedies and actions relating to delinquency and default of debtors, debt restructuring, debt forgiveness, forbearance, payment holidays, losses, charge offs, recoveries and other asset performance remedies. The transaction documentation shall clearly specify the priorities of payment, events which trigger changes in such priorities of payment as well as the obligation to report such events. Any change in the priorities of payments which will materially adversely affect the repayment of the securitisation position shall be reported to investors without undue delay.

The transaction documentation shall include clear provisions that facilitate the timely resolution of conflicts between different classes of investors, voting rights shall be clearly defined and allocated to bondholders and the responsibilities of the trustee and other entities with fiduciary duties to investors shall be clearly identified.

The originator and the sponsor shall make available data on static

and dynamic historical default and loss performance, such as delinquency and default data, for substantially similar exposures to those being securitised, and the sources of those data and the basis for claiming similarity, to potential investors before pricing. Those data shall cover a period of at least five years.

A sample of the underlying exposures shall be subject to external verification prior to issuance of the securities resulting from the securitisation by an appropriate and independent party, including verification that the data disclosed in respect of the underlying exposures is accurate.

The originator or the sponsor shall, before the pricing of the securitisation, make available to potential investors a liability cash flow model which precisely represents the contractual relationship between the underlying exposures and the payments flowing between the originator, sponsor, investors, other third parties and the SSPE, and shall, after pricing, make that model available to investors on an ongoing basis and to potential investors upon request.

In the case of a securitisation where the underlying exposures are residential loans or auto loans or leases, the originator and sponsor shall publish the available information related to the environmental performance of the assets financed by such residential loans or auto loans or leases, as part of the information disclosed pursuant to point (a) of the first subparagraph of Article 7(1).

Requirements relating to transparency

Article 22

The originator and the sponsor shall be responsible for compliance with Article 7. The information required by point (a) of the first subparagraph of Article 7(1) shall be made available to potential investors before pricing upon request. The information required by points (b) to (d) of the first subparagraph of Article 7(1) shall be made available before pricing at least in draft or initial form. The final documentation shall be made available to investors at the latest 15 days after closing of the transaction.

For the purpose of paragraph 1, any of the following shall constitute severe clawback provisions:

- provisions which allow the liquidator of the seller to invalidate the sale of the underlying exposures solely on the basis that it was concluded within a certain period before the declaration of the seller's insolvency;
- provisions where the SSPE can only prevent the invalidation referred to in point (a) if it can prove that it was not aware of the insolvency of the seller at the time of sale.

For the purpose of paragraph 1, clawback provisions in national insolvency laws that allow the liquidator or a court to invalidate the sale of underlying exposures in the case of fraudulent transfers, unfair prejudice to creditors or transfers intended to improperly favour particular creditors over others shall not constitute severe clawback provisions.

Where the seller is not the original lender, the true sale or assignment or transfer with the same legal effect of the underlying exposures to the seller, whether that true sale or assignment or transfer with the same legal effect is direct or through one or more intermediate steps, shall meet the requirements set out in paragraphs 1 to 3.

Where the transfer of the underlying exposures is performed by means of an assignment and perfected at a later stage than at the closing of the transaction, the triggers to effect such perfection shall include at least the following events:

-

severe deterioration in the seller credit quality standing;
insolvency of the seller; and
unremedied breaches of contractual obligations by the seller, including the seller's default.
The seller shall provide representations and warranties that, to the best of its knowledge, the underlying exposures included in the securitisation are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect. The underlying exposures transferred from, or assigned by, the seller to the SSPE shall meet predetermined, clear and documented eligibility criteria which do not allow for active portfolio management of those exposures on a discretionary basis. For the purpose of this paragraph, substitution of exposures that are in breach of representations and warranties shall not be considered active portfolio management. Exposures transferred to the SSPE after the closing of the transaction shall meet the eligibility criteria applied to the initial underlying exposures. The underlying exposures shall not include any securitisation position. <p>The underlying exposures shall be transferred to the SSPE after selection without undue delay and shall not include, at the time of selection, exposures in default within the meaning of Article 178(1) of Regulation (EU) No 575/2013 or exposures to a credit-impaired debtor or guarantor, who, to the best of the originator's or original lender's knowledge:</p> <ol class="crrCharList">

- a restructured underlying exposure has not presented new arrears since the date of the restructuring, which must have taken place at least one year prior to the date of transfer or assignment of the underlying exposures to the SSPE; and
- the information provided by the originator, sponsor and SSPE in accordance with points (a) and (e)(i) of the first subparagraph of Article 7(1) explicitly sets out the proportion of restructured underlying exposures, the time and details of the restructuring as well as their performance since the date of the restructuring;
- was, at the time of origination, where applicable, on a public credit registry of persons with adverse credit history or, where there is no such public credit registry, another credit registry that is available to the originator or original lender; or
- has a credit assessment or a credit score indicating that the risk of contractually agreed payments not being made is significantly higher than for comparable exposures held by the originator which are not securitised.

The debtors shall, at the time of transfer of the exposures, have made at least one payment, except in the case of revolving securitisations backed by exposures

backed by exposures payable in a single instalment or having a maturity of less than one year, including without limitation monthly payments on revolving credits.

The repayment of the holders of the securitisation positions shall not have been structured to depend predominantly on the sale of assets securing the underlying exposures. This shall not prevent such assets from being subsequently rolled over or refinanced.

The repayment of the holders of the securitisation positions whose underlying exposures are secured by assets the value of which is guaranteed or fully mitigated by a repurchase obligation by the seller of the assets securing the underlying exposures or by another third party shall not be considered to depend on the sale of assets securing those underlying exposures.

The interest-rate and currency risks arising from the securitisation shall be appropriately mitigated and any measures taken to that effect shall be disclosed. Except for the purpose of hedging interest-rate or currency risk, the SSPE shall not enter into derivative contracts and shall ensure that the pool of underlying exposures does not include derivatives. Those derivatives shall be underwritten and documented according to common standards in international finance.

The transaction documentation shall set out, in clear and consistent terms, definitions, remedies and actions relating to delinquency and default of debtors, debt restructuring, debt forgiveness, forbearance, payment holidays, losses, charge-offs, recoveries and other asset-performance remedies. The transaction documentation shall

documentation shall clearly specify the priorities of payment, events which trigger changes in such priorities of payment as well as the obligation to report such events. Any change in the priorities of payments which will materially adversely affect the repayment of the securitisation position shall be reported to investors without undue delay.

The originator and the sponsor shall make available data on static and dynamic historical default and loss performance, such as delinquency and default data, for substantially similar exposures to those being securitised, and the sources of those data and the basis for claiming similarity, to potential investors before pricing. Where the sponsor does not have access to such data, it shall obtain from the seller access to data, on a static or dynamic basis, on the historical performance, such as delinquency and default data, for exposures substantially similar to those being securitised. All such data shall cover a period no shorter than five years, except for data relating to trade receivables and other short-term receivables, for which the historical period shall be no shorter than three years.

ABCP transactions shall be backed by a pool of underlying exposures that are homogeneous in terms of asset type, taking into account the characteristics relating to the cash flows of different asset types including their contractual, credit-risk and prepayment characteristics. A pool of underlying exposures shall only comprise one asset type. The pool of underlying exposures shall have a remaining weighted average life of not more than one year, and none of the underlying exposures shall have a residual maturity of more than

maturity of more than three years.
By way of derogation from the second subparagraph, pools of auto loans, auto leases and equipment lease transactions shall have a remaining weighted average life of not more than three and a half years, and none of the underlying exposures shall have a residual maturity of more than six years.
The underlying exposures shall not include loans secured by residential or commercial mortgages or fully guaranteed residential loans, as referred to in point (e) of the first subparagraph of Article 129(1) of Regulation (EU) No 575/2013. The underlying exposures shall contain obligations that are contractually binding and enforceable, with full recourse to debtors with defined payment streams relating to rental, principal, interest, or related to any other right to receive income from assets warranting such payments. The underlying exposures may also generate proceeds from the sale of any financed or leased assets. The underlying exposures shall not include transferable securities as defined in point (44) of Article 4(1) of Directive 2014/65/EU other than corporate bonds, that are not listed on a trading venue.

Any referenced interest payments under the ABCP transactionâ€™s assets and liabilities shall be based on generally used market interest rates, or generally used sectoral rates reflective of the cost of funds, but shall not reference complex formulae or derivatives. Referenced interest payments under the ABCP transactionâ€™s liabilities may be based on interest rates reflective of an ABCP programmeâ€™s cost of funds.

no amount of cash shall be trapped in the SSPE beyond what is necessary to ensure the operational functioning of the SSPE or the orderly repayment of investors in accordance with the contractual terms of the securitisation unless exceptional circumstances require that an amount be trapped to be used, in the best interests of investors, for expenses in order to avoid the deterioration in the credit quality of the underlying exposures;

 principal receipts from the underlying exposures shall be passed to investors holding a securitisation position via sequential payment of the securitisation positions, as determined by the seniority of the securitisation position; and no provisions shall require automatic liquidation of the underlying exposures at market value.

The underlying exposures shall be originated in the ordinary course of the seller's business pursuant to underwriting standards that are no less stringent than those that the seller applies at the time of origination to similar exposures that are not securitised. The underwriting standards pursuant to which the underlying exposures are originated and any material changes from prior underwriting standards shall be fully disclosed to the sponsor and other parties directly exposed to the ABCP transaction without undue delay. The seller shall have expertise in originating exposures of a similar nature to those securitised.

<p>Where an ABCP transaction is a revolving securitisation, the transaction documentation shall include triggers for termination of the revolving period,

including at least the following:

- a deterioration in the credit quality of the underlying exposures to or below a predetermined threshold; and
- the occurrence of an insolvency-related event with regard to the seller or the servicer.

The transaction documentation shall clearly specify:

- the contractual obligations, duties and responsibilities of the sponsor, the servicer and the trustee, if any, and other ancillary service providers;
- the processes and responsibilities necessary to ensure that a default or insolvency of the servicer does not result in a termination of servicing;
- provisions that ensure the replacement of derivative counterparties and the account bank upon their default, insolvency and other specified events, where applicable; and
- how the sponsor meets the requirements of Article 25(3).

The EBA, in close cooperation with ESMA and EIOPA, shall develop draft regulatory technical standards further specifying which underlying exposures referred to in paragraph 15 are deemed to be homogeneous.

The EBA shall submit those draft regulatory technical standards to the Commission by 18 July 2018.

The Commission is empowered to supplement this Regulation by adopting the regulatory technical standards referred to in this paragraph in accordance with Articles 10 to 14 of Regulation (EU) No 1093/2010.

- The sponsor of the ABCP programme shall be a credit institution supervised under

Directive 2013/36/EU.

 The sponsor of an ABCP programme shall be a liquidity facility provider and shall support all securitisation positions on an ABCP programme level by covering all liquidity and credit risks and any material dilution risks of the securitised exposures as well as any other transaction- and programme-level costs if necessary to guarantee to the investor the full payment of any amount under the ABCP with such support. The sponsor shall disclose a description of the support provided at transaction level to the investors including a description of the liquidity facilities provided.

Before being able to sponsor an STS ABCP programme, the credit institution shall demonstrate to its competent authority that its role under paragraph 2 does not endanger its solvency and liquidity, even in an extreme stress situation in the market.
The requirement referred to in the first subparagraph of this paragraph shall be considered to be fulfilled where the competent authority has determined on the basis of the review and evaluation referred to Article 97(3) of Directive 2013/36/EU that the arrangements, strategies, processes and mechanisms implemented by that credit institution and the own funds and liquidity held by it ensure the sound management and coverage of its risks. The sponsor shall perform its own due diligence and shall verify compliance with the requirements set out in Article 5(1) and (3) of this Regulation, as applicable. It shall also verify that the seller has in place servicing capabilities and collection processes that meet the requirements specified in points (h) to (p) of Article 265(2) of Regulation (EU) No

575/2013 or equivalent requirements in third countries.

The seller, at the level of a transaction, or the sponsor, at the level of the ABCP programme, shall satisfy the risk-retention requirement referred to in Article 6.

The sponsor shall be responsible for compliance with Article 7 at ABCP programme level and for making available to potential investors before pricing upon their request:

- the aggregate information required by point (a) of the first subparagraph of Article 7(1); and
- the information required by points (b) to (e) of the first subparagraph of Article 7(1), at least in draft or initial form.

In the event that the sponsor does not renew the funding commitment of the liquidity facility before its expiry, the liquidity facility shall be drawn down and the maturing securities shall be repaid.

- All ABCP transactions within an ABCP programme shall fulfil the requirements of Article 24(1) to (8) and (12) to (20).
A maximum of 5 % of the aggregate amount of the exposures underlying the ABCP transactions and which are funded by the ABCP programme may temporarily be non-compliant with the requirements of Article 24(9), (10) and (11) without affecting the STS status of the ABCP programme.
For the purpose of the second subparagraph of this paragraph, a sample of the underlying exposures shall regularly be subject to external verification of compliance by an appropriate and independent party.
- The remaining weighted average life of the underlying exposures of an ABCP programme shall not be

more than two years.

 The ABCP programme shall be fully supported by a sponsor in accordance with Article 25(2).

The ABCP programme shall not contain any resecuritisation and the credit enhancement shall not establish a second layer of tranching at the programme level.

The securities issued by an ABCP programme shall not include call options, extension clauses or other clauses that have an effect on their final maturity, where such options or clauses may be exercised at the discretion of the seller, sponsor or SSPE.

The interest-rate and currency risks arising at ABCP programme level shall be appropriately mitigated and any measures taken to that effect shall be disclosed. Except for the purpose of hedging interest-rate or currency risk, the SSPE shall not enter into derivative contracts and shall ensure that the pool of underlying exposures does not include derivatives. Those derivatives shall be underwritten and documented according to common standards in international finance.

that, upon specified events, default or insolvency of the sponsor, remedial steps shall be provided for to achieve, as appropriate, collateralisation of the funding commitment or replacement of the liquidity facility provider;

and that the liquidity facility shall be drawn down and the maturing securities shall be repaid in the event that the sponsor does not renew the funding commitment of the liquidity facility before its expiry.

The servicer shall have expertise in servicing exposures of a similar nature to those securitised and shall have well-documented policies, procedures and risk-management controls relating to the servicing of exposures.

paragraph 1 of this Article shall be accompanied by the following information:

- Originators and sponsors of a securitisation shall inform their competent authorities of the STS notification and designate amongst themselves one entity to be the first contact point for investors and competent authorities.
- The originator, sponsor or SSPE may use the service of a third party authorised under Article 28 to check whether a securitisation complies with Articles 19 to 22 or Articles 23 to 26. However, the use of such a service shall not, under any circumstances, affect the liability of the originator, sponsor or SSPE in respect of their legal obligations under this Regulation. The use of such service shall not affect the obligations imposed on institutional investors as set out in Article 5.

Where the originator, sponsor or SSPE use the service of a third party authorised pursuant to Article 28 to assess whether a securitisation complies with Articles 19 to 22 or Articles 23 to 26, the STS notification shall include a statement that compliance with the STS criteria was confirmed by that authorised third party. The notification shall include the name of the authorised third party, its place of establishment and the name of the competent authority that authorised it.

Where the originator or original lender is not a credit institution or investment firm, as defined in points (1) and (2) of Article 4(1) of Regulation (EU) No 575/2013, established in the Union, the notification pursuant to paragraph 1 of this Article shall be accompanied by the following:

- confirmation by the originator or original lender that its credit-granting is done on the basis of sound and well-defined criteria and clearly established processes for approving, amending, renewing and financing credits and

 a declaration by the originator or original lender as to whether credit granting referred to in point (a) is subject to supervision.
 The originator and sponsor shall immediately notify ESMA and inform their competent authority when a securitisation no longer meets the requirements of either Articles 19 to 22 or Articles 23 to 26.
 ESMA shall maintain on its official website a list of all securitisations which the originators and sponsors have notified to it as meeting the requirements of Articles 19 to 22 or Articles 23 to 26. ESMA shall add each securitisation so notified to that list immediately and shall update the list where the securitisations are no longer considered to be STS following a decision of competent authorities or a notification by the originator or sponsor. Where the competent authority has imposed administrative sanctions in accordance with Article 32, it shall notify ESMA thereof immediately. ESMA shall immediately indicate on the list that a competent authority has imposed administrative sanctions in relation to the securitisation concerned. ESMA, in close cooperation with the EBA and EIOPA, shall develop draft regulatory technical standards specifying the information that the originator, sponsor and SSPE are required to provide in order to comply with the obligations referred to in paragraph 1.
ESMA shall submit those draft regulatory technical standards to the Commission by 18 July 2018.

SECTION
3

A third party referred to in Article 27(2) shall be authorised by the competent authority to assess the compliance of securitisations with the STS criteria provided for in Articles 19 to 22 or Articles 23 to 26. The competent authority shall grant the authorisation if the following conditions are met:

the third party only charges non-discriminatory and cost-based fees to the originators, sponsors or SSPEs involved in the securitisations which the third party assesses without differentiating fees depending on, or correlated to, the results of its assessment;

the third party is neither a regulated entity as defined in point (4) of Article 2 of Directive 2002/87/EC nor a credit rating agency as defined in point (b) of Article 3(1) of Regulation (EC) No 1060/2009, and the performance of the third party's other

activities does not compromise the independence or integrity of its assessment;

- the third party shall not provide any form of advisory, audit or equivalent service to the originator, sponsor or SSPE involved in the securitisations which the third party assesses;
- the members of the management body of the third party have professional qualifications, knowledge and experience that are adequate for the task of the third party and they are of good repute and integrity;
- the management body of the third party includes at least one third, but no fewer than two, independent directors;
- the third party takes all necessary steps to ensure that the verification of STS compliance is not affected by any existing or potential conflicts of interest or business relationship involving the third party, its shareholders or members, managers, employees or any other natural person whose services are placed at the disposal or under the control of the third party. To that end, the third party shall establish, maintain, enforce and document an effective internal control system governing the implementation of policies and procedures to identify and prevent potential conflicts of interest. Potential or existing conflicts of interest which have been identified shall be eliminated or mitigated and disclosed without delay. The third party shall establish, maintain, enforce and document adequate procedures and processes to ensure the independence of the assessment of STS compliance. The third party shall periodically monitor and review those policies and procedures in order to evaluate their effectiveness and assess whether it is necessary to update them; and

Compliance with the obligations set out in Article 5 of this Regulation shall be supervised by the following competent authorities in accordance with the powers granted by the relevant legal acts:

- for insurance and reinsurance undertakings, the competent authority designated in accordance with point (10) of Article 13 of Directive 2009/138/EC;
- for alternative investment fund managers, the competent authority responsible designated in accordance with Article 44 of Directive 2011/61/EU;
- for UCITS and UCITS management companies, the competent authority designated in accordance with Article 97 of Directive 2009/65/EC;
- for institutions for occupational retirement provision, the competent authority designated in accordance with point (g) of Article 6 of Directive 2003/41/EC of the European Parliament and of the Council Directive 2003/41/EC of the European Parliament and of the Council of 3 June 2003 on the activities and supervision of institutions for occupational retirement provision (OJ L 235, 23.9.2003, p. 10).;
- for credit institutions or investments firms, the competent authority designated in accordance with Article 4 of Directive 2013/36/EU, including the ECB with regard to specific tasks conferred on it by Regulation (EU) No 1024/2013.

Competent authorities responsible for the supervision of sponsors in accordance with Article 4 of Directive 2013/36/EU, including the ECB with regard to specific tasks conferred on it by Regulation (EU) No 1024/2013, shall supervise compliance by sponsors with the obligations set out in Articles 6, 7, 8 and 9 of this Regulation.

Where originators, original lenders and SSPEs are supervised entities in accordance with Directives 2003/41/EC, 2009/138/EC, 2009/65/EC, 2011/61/EU and 2013/36/EU and Regulation (EU) No 1024/2013, the relevant competent authorities designated according to those acts, including the ECB with regard to specific tasks conferred on it by Regulation (EU) No 1024/2013, shall supervise compliance with the obligations set out in Articles 6, 7, 8 and 9 of this Regulation.

For originators, original lenders and SSPEs established in the Union and not covered by the Union legislative acts referred to in paragraph 3, Member States shall designate one or more competent authorities to supervise compliance with the obligations set out in Articles 6, 7, 8 and 9. Member States shall inform the Commission and ESMA of the designation of competent authorities pursuant to this paragraph by 1 January 2019. That obligation shall not apply with regard to those entities that are merely selling exposures under an ABCP programme or another securitisation transaction or scheme and are not actively originating exposures for the primary purpose of securitising them on a regular basis.

Member States shall designate one or more competent authorities to supervise the compliance of originators, sponsors and SSPEs with Articles 18 to 27, and the compliance of third parties with Article 28. Member States shall inform the Commission and ESMA of the designation of competent authorities pursuant to this paragraph by 18 January 2019.

in the case of an infringement as referred to in point (h) of the first subparagraph of paragraph 1 of this Article, a temporary withdrawal of the authorisation referred to in Article 28 for the third party authorised to check the compliance of a securitisation with Articles 19 to 22 or Articles 23 to 26.

Where the provisions referred to in the first paragraph apply to legal persons, Member States shall confer on competent authorities the power to apply the administrative sanctions and remedial measures set out in paragraph 2, subject to the conditions provided for in national law, to members of the management body, and to other individuals who under national law are responsible for the infringement.

Member States shall ensure that any decision imposing administrative sanctions or remedial measures set out in paragraph 2 is properly reasoned and is subject to a right of appeal.

Competent authorities shall exercise the powers to impose administrative sanctions and remedial measures referred to in Article 32 in accordance with their national legal frameworks, as appropriate:

- directly;
- in collaboration with other authorities;
- under their responsibility by delegation to other authorities;
- by application to the competent judicial authorities.

Competent authorities, when determining the type and level of an administrative sanction or remedial measure imposed under Article 32, shall take into account the extent to which the infringement is intentional or results from negligence and all other relevant circumstances, including, where appropriate:

- the materiality, gravity and the duration of the infringement;
- the degree of responsibility of the natural or legal person responsible for the infringement;
- the financial strength of the responsible natural or legal person;
- the importance of profits gained or losses avoided by the responsible natural or legal person, insofar as they can be determined;
- the losses for third parties caused by the infringement, insofar as they can be determined;
- the level of cooperation of the responsible natural or legal person with the competent authority, without prejudice to the need to ensure disgorgement of profits gained or losses avoided by that person;
- previous infringements by the responsible natural or legal person.

Exercise of the power to impose administrative sanctions and remedial measures

Article 33

Member States may decide not to lay down rules for administrative sanctions or remedial measures for infringements which are subject to criminal sanctions under their national law.

Where Member States have chosen, in accordance with paragraph 1 of this Article, to lay down criminal sanctions for the infringement referred to in Article 32(1), they shall ensure that appropriate measures are in place so that competent authorities have all the necessary powers to liaise with judicial, prosecuting, or criminal justice authorities within their jurisdiction to receive specific information related to criminal investigations or

proceedings commenced for the infringements referred to in Article 32(1), and to provide the same information to other competent authorities as well as ESMA, the EBA and EIOPA to fulfil their obligation to cooperate for the purposes of this Regulation.		
Member States shall notify the laws, regulations and administrative provisions implementing this Chapter, including any relevant criminal law provisions, to the Commission, ESMA, the EBA and EIOPA by 18 January 2019. Member States shall notify the Commission, ESMA, the EBA and EIOPA without undue delay of any subsequent amendments thereto.	Notification duties	Article 35
<p>The competent authorities referred to in Article 29 and ESMA, the EBA and EIOPA shall cooperate closely with each other and exchange information to carry out their duties pursuant to Article 30 to 34.</p> <p>Competent authorities shall closely coordinate their supervision in order to identify and remedy infringements of this Regulation, develop and promote best practices, facilitate collaboration, foster consistency of interpretation and provide cross-jurisdictional assessments in the event of any disagreements.</p> <p>A specific securitisation committee shall be established within the framework of the Joint Committee of the European Supervisory Authorities, within which competent authorities shall closely cooperate, in order to carry out their duties pursuant to Articles 30 to 34.</p> <p>Where a competent authority finds that one or more of the requirements under Articles 6 to 27 have been infringed or has reason to believe so, it shall inform the competent authority of the entity or entities suspected of such infringement of its findings in a sufficiently detailed manner. The competent authorities concerned shall closely coordinate their supervision in order to ensure consistent decisions.</p> <p>Where the infringement referred to in paragraph 4 of this Article concerns, in particular, an incorrect or misleading notification pursuant to Article 27(1), the competent authority finding that infringement shall notify without delay, the competent authority of the entity designated as the first contact point under Article 27(1) of its findings. The competent authority of the entity designated as the first contact point under Article 27(1) shall in turn inform ESMA, the EBA and EIOPA and shall follow the procedure provided for in paragraph 6 of this Article.</p> <p>Upon receipt of the information referred to in paragraph 4, the competent authority of the entity suspected of the infringement shall take within 15 working days any necessary action to address the infringement identified and notify the other competent authorities involved, in particular those of the originator, sponsor and SSPE and the competent authorities of the holder of a securitisation position, when known. When a competent authority disagrees with another competent authority regarding the procedure or content of its action or inaction, it shall notify all other competent authorities involved about its disagreement without undue delay. If that disagreement is not resolved within three months of the date on which all competent authorities involved are notified, the matter shall be referred to ESMA in accordance with Article 19 and, where</p>	Cooperation between competent authorities and the ESAs	Article 36

in accordance with Article 19 and, where applicable, Article 20 of Regulation (EU) No 1095/2010. The conciliation period referred to in Article 19(2) of Regulation (EU) No 1095/2010 shall be one month.

Where the competent authorities concerned fail to reach an agreement within the conciliation phase referred to in the first subparagraph, ESMA shall take the decision referred to in Article 19(3) of Regulation (EU) No 1095/2010 within one month. During the procedure set out in this Article, a securitisation appearing on the list maintained by ESMA pursuant to Article 27 of this Regulation shall continue to be considered as STS pursuant to Chapter 4 of this Regulation and shall be kept on such list.

Where the competent authorities concerned agree that the infringement is related to non-compliance with Article 18 in good faith, they may decide to grant the originator, sponsor and SSPE a period of up to three months to remedy the identified infringement, starting from the day the originator, sponsor and SSPE were informed of the infringement by the competent authority. During this period, a securitisation appearing on the list maintained by ESMA pursuant to Article 27 shall continue to be considered as STS pursuant to Chapter 4 and shall be kept on such list.

Where one or more of the competent authorities involved is of the opinion that the infringement is not appropriately remedied within the period set out in third subparagraph, first subparagraph shall apply.

Three years from the date of application of this Regulation, ESMA shall conduct a peer review in accordance with Article 30 of Regulation (EU) No 1095/2010 on the implementation of the criteria provided for in Articles 19 to 26 of this Regulation.

ESMA shall, in close cooperation with the EBA and EIOPA, develop draft regulatory technical standards to specify the general cooperation obligation and the information to be exchanged under paragraph 1 and the notification obligations pursuant to paragraphs 4 and 5.

ESMA shall, in close cooperation with the EBA and EIOPA, submit those draft regulatory technical standards to the Commission by 18 January 2019.

The Commission is empowered to supplement this Regulation by adopting the regulatory technical standards referred to in this paragraph in accordance with Articles 10 to 14 of Regulation (EU) No 1095/2010.

Member States shall ensure that competent authorities publish on their official websites, without undue delay and as a minimum, any decision imposing an administrative sanction against which there is no appeal and which is imposed for infringement of Article 6, 7, 9 or 27(1) after the addressee of the sanction has been notified of that decision.

The publication referred to in paragraph 1 shall include information on the type and nature of the infringement and the identity of the persons responsible and the sanctions imposed.

Where the publication of the identity, in the case of legal persons, or of the identity and personal data, in the case of natural persons is considered by the competent authority to be disproportionate following a case-by-case assessment, or where the competent authority considers that the publication jeopardises the stability of financial markets or an on-going criminal investigation,

	<p>or where the publication would cause, insofar as it can be determined, disproportionate damages to the person involved, Member States shall ensure that competent authorities either:</p> <ol class="crrCharList" style="list-style-type: none"> defer the publication of the decision imposing the administrative sanction until the moment where the reasons for non-publication cease to exist; publish the decision imposing the administrative sanction on an anonymous basis, in accordance with national law; or not publish at all the decision to impose the administrative sanction in the event that the options set out in points (a) and (b) are considered to be insufficient to ensure: <ol class="crrRomanList" style="list-style-type: none"> that the stability of financial markets would not be put in jeopardy; or the proportionality of the publication of such decisions with regard to measures which are deemed to be of a minor nature. 	<p>In the case of a decision to publish a sanction on an anonymous basis, the publication of the relevant data may be postponed. Where a competent authority publishes a decision imposing an administrative sanction against which there is an appeal before the relevant judicial authorities, competent authorities shall also immediately add on their official website that information and any subsequent information on the outcome of such appeal. Any judicial decision annulling a decision imposing an administrative sanction shall also be published.</p> <p>Competent authorities shall ensure that any publication referred to in paragraphs 1 to 4 shall remain on their official website for at least five years after its publication. Personal data contained in the publication shall only be kept on the official website of the competent authority for the period which is necessary in accordance with the applicable data protection rules.</p> <p>Competent authorities shall inform ESMA of all administrative sanctions imposed, including, where appropriate, any appeal in relation thereto and the outcome thereof.</p> <p>ESMA shall maintain a central database of administrative sanctions communicated to it. That database shall be only accessible to ESMA, the EBA, EIOPA and the competent authorities and shall be updated on the basis of the information provided by the competent authorities in accordance with paragraph 6.</p>

This Regulation shall apply to securitisations the securities of which are issued on or after 1 January 2019, subject to paragraphs 7 and 8. In respect of securitisations the securities of which were issued before 1 January 2019, originators, sponsors and SSPEs may use the designation STS or simple, transparent and standardised, or a designation that refers directly or indirectly to those terms, only where the requirements set out in Article 18 and the conditions set out in paragraph 3 of this Article are complied with.

Securitisations the securities of which were issued before 1 January 2019, other than securitisation positions relating to an ABCP transaction or an ABCP programme, shall be considered STS provided that:

- they met, at the time of issuance of those securities, the requirements set out in Article 20(1) to (5), (7) to (9) and (11) to (13) and Article 21(1) and (3); and
- they meet, as of the time of notification pursuant to Article 27(1), the requirements set out in Article 20(6) and (10), Article 21(2) and (4) to (10) and Article 22(1) to (5).

For the purposes of point (b) of paragraph 3, the following shall apply:

- in Article 22(2), prior to issuance shall be deemed to read prior to notification under Article 27(1);
- in Article 22(3), before the pricing of the securitisation shall be deemed to read prior to notification under Article 27(1);
- in Article 22(5):

- in the second sentence, before pricing shall be deemed to read prior to notification under Article 27(1);
- before pricing at least in draft or initial form shall be deemed to read prior to notification under Article 27(1);
- the requirement set out in the fourth sentence shall not apply;
