Member States may provide that competent authorities have the power to require an institution to maintain detailed records of financial contracts to which the institution concerned is a party.

The management body of the institution referred to in paragraph 1 shall assess and approve the recovery plan before submitting it to the competent authority.

EBA shall develop draft regulatory technical standards further specifying, without prejudice to Article 4, the information to be contained in the recovery plan referred to in paragraph 5 of this Article.

EBA shall submit those draft regulatory technical standards to the Commission by 3 July 2015.

Power is delegated to the Commission to adopt the regulatory technical standards referred to in the first subparagraph in accordance with Articles 10 to 14 of Regulation (EU) No 1093/2010.

Member States shall require institutions that are required to draw up recovery plans under Article 5(1) and Article 7(1) to submit those recovery plans to the competent authority for review. Member States shall require institutions to demonstrate to the satisfaction of the competent authority that those plans meet the criteria of paragraph 2.

The competent authorities shall, within six months of the submission of each plan, and after consulting the competent authorities of the Member States where significant branches are located insofar as is relevant to that branch, review it and assess the extent to which it satisfies the requirements laid down in Article 5 and the following criteria:

- the implementation of the arrangements proposed in the plan is reasonably likely to maintain or restore the viability and financial position of the institution or of the group, taking into account the preparatory measures that the institution has taken or has planned to take;
- the plan and specific options within the plan are reasonably likely to be implemented quickly and effectively in situations of financial stress and avoiding to the maximum extent possible any significant adverse effect on the financial system, including in scenarios which would lead other institutions to implement recovery plans within the same period.

When assessing the appropriateness of the recovery plans, the competent authority shall take into consideration the appropriateness of the institution's capital and funding structure to the level of complexity of the organisational structure and the risk profile of the institution.

The competent authority shall provide the recovery plan to the resolution authority. The resolution authority may examine the recovery plan with a view to identifying any actions in the recovery plan which may adversely impact the resolvability of the institution and make recommendations to the competent authority with regard to those matters.

Where the competent authority assesses that there are material deficiencies in the recovery plan, or material impediments to its implementation, it shall notify the institution or the parent undertaking of the group of its assessment and require the institution to submit, within two months, extendable with the authorities' approval by one month, a revised plan demonstrating how those deficiencies or impediments are addressed.

Before requiring an institution to resubmit a recovery plan the competent authority shall give the institution the opportunity to state its opinion on that requirement.

Where the competent authority does not consider the deficiencies and impediments to have been adequately addressed by the revised plan, it may direct the institution to make specific changes to the plan.

If the institution fails to submit a revised recovery plan, or if the competent authority determines that the revised recovery plan does not adequately remedy the deficiencies or potential impediments identified in its original assessment, and it is not possible to adequately remedy the deficiencies or impediments through a direction to make specific changes to the plan, the competent authority shall require the institution to identify within a reasonable timeframe changes it can make to its business in order to address the deficiencies in or impediments to the implementation of the recovery plan.

conclusive and applied by the competent authorities in the Member States concerned.

Upon request of a competent authority in accordance with paragraph 3 or 4, EBA may only assist the competent authorities in reaching an agreement in accordance with Article 19(3) of Regulation (EU) No 1093/2010 in relation to the assessment of recovery plans and implementation of the measures of point (a), (b) and (d) of Article 6(6).

For the purpose of Articles 5 to 8, competent authorities shall require that each recovery plan includes a framework of indicators established by the institution which identifies the points at which appropriate actions referred to in the plan may be taken. Such indicators shall be agreed by competent authorities when making the assessment of recovery plans in accordance with Articles 6 and 8. The indicators may be of a qualitative or quantitative nature relating to the institution's financial position and shall be capable of being monitored easily. Competent authorities shall ensure that institutions put in place appropriate arrangements for the regular monitoring of the indicators.

Notwithstanding the first subparagraph, an institution may:

- take action under its recovery plan where the relevant indicator has not been met, but where the management body of the institution considers it to be appropriate in the circumstances; or
- refrain from taking such an action where the management body of the institution does not consider it to be appropriate in the circumstances of the situation.

A decision to take an action referred to in the recovery plan or a decision to refrain from taking such an action shall be notified to the competent authority without delay.

EBA shall, by 3 July 2015, issue guidelines in accordance with Article 16 of Regulation (EU) No 1093/2010 to specify the minimum list of qualitative and quantitative indicators as referred to in paragraph 1.

## TITLE

The resolution authority, after consulting the competent authority and after consulting the resolution authorities of the jurisdictions in which any significant branches are located insofar as is relevant to the significant branch shall draw up a resolution plan for each institution that is not part of a group subject to consolidated supervision pursuant to Articles 111 and 112 of Directive 2013/36/EU. The resolution plan shall provide for the resolution actions which the resolution authority may take where the institution meets the conditions for resolution. Information referred to paragraph 7(a) shall be disclosed to the institution concerned.

When drawing up the resolution plan, the resolution authority shall identify any material impediments to resolvability and, where necessary and proportionate, outline relevant actions for how those impediments could be addressed, according to Chapter II of this Title.

The resolution plan shall take into consideration relevant scenarios including that the event of failure may be idiosyncratic or may occur at a time of broader financial instability or system wide events. The resolution plan shall not assume any of the following:

- any extraordinary public financial support besides the use of the financing arrangements established in accordance with Article 100;
- any central bank emergency liquidity assistance; or
- any central bank liquidity assistance provided under non-standard collateralisation, tenor and interest rate terms.

The resolution plan shall include an analysis of how and when an institution may apply, in the conditions addressed by the plan, for the use of central bank facilities and shall identify those assets which would be expected to qualify as collateral.

Resolution authorities may require institutions to assist them in the drawing up and updating of the plans.

Resolution plans shall be reviewed, and where appropriate updated, at least annually and after any material changes to the legal or organisational structure of the institution or to its business or its financial position that could have a material effect on the effectiveness of the plan or otherwise necessitates a revision of the resolution plan.

For the purpose of the revision or update of the resolution plans referred to in the first subparagraph, the institutions and the competent authorities shall promptly communicate to the resolution authorities any change that necessitates such a revision or update.

The

review referred to in the first subparagraph of this paragraph shall be carried out after the implementation of resolution actions or the exercise of powers referred to in Article 59.

When setting the deadlines referred to in points (o) and (p) of paragraph 7 of this Article in the circumstances referred to in the third subparagraph of this paragraph, the resolution authority shall take into account the deadline to comply with the requirement referred to in Article 104b of Directive 2013/36/EU.

Without prejudice to Article 4, the resolution plan shall set out options for applying the resolution tools and resolution powers referred to in Title IV to the institution. It shall include, quantified whenever appropriate and possible:

- a summary of the key elements of the plan;
- a summary of the material changes to the institution that have occurred after the latest resolution information was filed;
- a demonstration of how critical functions and core business lines could be legally and economically separated, to the extent necessary, from other functions so as to ensure continuity upon the failure of the institution;
- an estimation of the timeframe for executing each material aspect of the plan;
- a detailed description of the assessment of resolvability carried out in accordance with paragraph 2 of this Article and with Article 15;
- a description of any measures required pursuant to Article 17 to address or remove impediments to resolvability identified as a result of the assessment carried out in accordance with Article 15;
- a description of the processes for determining the value and marketability of the critical functions, core business lines and assets of the institution;
- a detailed description of the arrangements for ensuring that the information required pursuant to Article 11 is up to date and at the disposal of the resolution authorities at all times;
- an explanation by the resolution authority as to how the resolution options could be financed without the assumption of any of the following:
  - any extraordinary public financial support besides the use of the financing arrangements established in accordance with Article 100;
  - any central bank emergency liquidity assistance; or
  - any central bank liquidity assistance provided under non-standard collateralisation, tenor and interest rate terms;
- a detailed description of the different resolution strategies that could be applied according to the different possible scenarios and the applicable timescales;
- a description of critical interdependencies;
- a description of options for preserving access to payments and clearing services and other infrastructures and, an assessment of the portability of client positions;
- an analysis of the impact of the plan on the employees of the institution, including an assessment of any associated costs, and a description of envisaged procedures to consult staff during the resolution process, taking into account national systems for dialogue with social partners where applicable;
- a plan for communicating with the media and the public;
- the requirements referred to in Article 45e and 45f and a deadline to reach that level in accordance with Article 45m;
- where a resolution authority applies Article 45b(4), (5) or (7), a timeline for compliance by the resolution entity in accordance with Article 45m;
- a description of essential operations and systems for maintaining the continuous functioning of the institution's operational processes;
- where applicable, any opinion expressed by the institution in relation to the resolution plan.

Member States shall ensure that resolution authorities have the power to require an institution and an entity referred to in point (b), (c) or (d) of Article 1(1) to maintain detailed records of financial contracts to which it is a party. The resolution authority may specify a time-limit within which the institution or entity referred to in point (b), (c) or (d) of Article 1(1) is to be capable of producing those records. The same time-limit shall apply to all institutions and all entities referred to in point (b), (c) and (d) of Article 1(1) under its jurisdiction. The resolution authority may decide to set different time-limits for different types of financial contracts as referred to in Article 2(100). $$Q_n = \frac{Q}{n}$$
 where Q = the ordinal number of the quartile concerned.

Member States shall ensure that when, pursuant to an assessment of resolvability for an entity carried out in accordance with Articles 15 and 16, a resolution authority, after consulting the competent authority, determines that there are substantive impediments to the resolvability of that entity, that resolution authority shall notify in writing that determination to the entity concerned, to the competent authority and to the resolution authorities of the jurisdictions in which significant branches are located. The requirement for resolution authorities to draw up resolution plans and for the relevant resolution authorities to reach a joint decision on group resolution plans in Article 10(1) and Article 13(4) respectively shall be suspended following the notification referred to in paragraph 1 of this Article until the measures to remove the substantive impediments to resolvability have been accepted by the resolution authority pursuant to paragraph 3 of this Article or decided pursuant to paragraph 4 of this Article. Within four months of the date of receipt of a notification made in accordance with paragraph 1, the entity shall propose to the resolution authority possible measures to address or remove the substantive impediments identified in the notification. The entity shall, within two weeks of the date of receipt of a notification made in accordance with paragraph 1 of this Article, propose to the resolution authority possible measures and the timeline for their implementation to ensure that the entity complies with Article 45e or 45f of this Directive and the combined buffer requirement, where a substantive impediment to resolvability is due to either of the following situations:

- the entity meets the combined buffer requirement when considered in addition to each of the requirements referred to points (a), (b) and (c) of Article 141a(1) of Directive 2013/36/EU, but it does not meet the combined buffer requirement when considered in addition to the requirements referred to in Articles 45c and 45d of this Directive when calculated in accordance with point (a) of Article 45(2) of this Directive; or
- the entity does not meet the requirements referred to in Articles 92a and 494 of Regulation (EU) No 575/2013 or the requirements referred to in Articles 45c and 45d of this Directive.

The timeline for the implementation of measures proposed under the second subparagraph shall take into account the reasons for the substantive impediment. The resolution authority, after consulting the competent authority, shall assess whether the measures proposed under the first and second subparagraphs effectively address or remove the substantive impediment in question. Where the resolution authority finds that the measures proposed by an entity in accordance with paragraph 3 do not effectively reduce or remove the impediments in question, it shall, either directly or indirectly through the competent authority, require the entity to take alternative measures that may achieve that objective, and notify in writing those measures to the entity, which shall propose within one month a plan to comply with them. In identifying alternative measures, the resolution authority shall demonstrate how the measures proposed by the entity would not be able to remove the impediments to resolvability and how the alternative measures proposed are proportionate in removing them. The resolution authority shall take into account the threat that those impediments to resolvability present for financial stability and the effect of the measures on the business of the entity, its stability and its ability to contribute to the economy.

For the purposes of paragraph 4, resolution authorities shall have the power to take any of the following measures:

- require the entity to revise any intragroup financing agreements or review the absence thereof, or draw up service agreements, whether intra-group or with third parties, to cover the provision of critical functions;
- require the entity to limit its maximum individual and aggregate exposures;
- impose specific or regular additional information requirements relevant for resolution purposes;
- require the entity to divest specific assets;
- require the entity to limit or cease specific existing or proposed activities;
- restrict or prevent the development of new or existing business lines or sale of new or existing products;
- require changes to legal or operational structures of the entity or any group entity, either directly or indirectly under its control, so as to reduce complexity in order to ensure that critical functions may be legally and operationally separated from other functions through the application of the resolution tools;
- require an entity or a parent undertaking to set up a parent financial holding company in a Member State or a Union parent financial holding company;

- for the purpose of ensuring ongoing compliance with Article 45e or Article 45f, require an institution or entity referred to in point (b), (c) or (d) of Article 1(1), to change the maturity profile of:

- own funds instruments, after having obtained the agreement of the competent authority, and
- eligible liabilities referred to in Article 45b and in point (a) of Article 45f(2);

where an entity is the subsidiary of a mixed-activity holding company, requiring that the mixed-activity holding company set up a separate financial holding company to control the entity, if necessary in order to facilitate the resolution of the entity and to avoid the application of the resolution tools and the exercise of the powers referred to in Title IV having an adverse effect on the non-financial part of the group.

A decision made pursuant to paragraph 1 or 4 shall meet the following requirements:

- it shall be supported by reasons for the assessment or determination in question;
- it shall indicate how that assessment or determination complies with the requirement for proportionate application laid down in paragraph 4; and
- it shall be subject to a right of appeal.

Before identifying any measure referred to in paragraph 4, the resolution authority, after consulting the competent authority and, if appropriate, the designated national macroprudential authority, shall duly consider the potential effect of those measures on the particular entity, on the internal market for financial services, and on the financial stability in other Member States and in the Union as a whole.

EBA shall, by 3 July 2015, issue guidelines in accordance with Article 16 of Regulation (EU) No 1093/2010 to specify further details on the measures provided for in paragraph 5 and the circumstances in which each measure may be applied.

- The group-level resolution authority together with the resolution authorities of subsidiaries, after consulting the supervisory college and the resolution authorities of the jurisdictions in which significant branches are located insofar as is relevant to the significant branch, shall consider the assessment required by Article 16 within the resolution college and shall take all reasonable steps to reach a joint decision on the application of measures identified in accordance with Article 17(4) in relation to all resolution entities and their subsidiaries that are entities referred to in Article 1(1) and are part of the group.
- The group-level resolution authority, in cooperation with the consolidating supervisor and EBA in accordance with Article 25(1) of Regulation (EU) No 1093/2010, shall prepare and submit a report to the Union parent undertaking, to the resolution authorities of subsidiaries, which shall provide it to the subsidiaries within their remit, and to the resolution authorities of jurisdictions in which significant branches are located. The report shall be prepared after consulting the competent authorities, and shall analyse the substantive impediments to the effective application of the resolution tools and the exercising of the resolution powers in relation to the group, and also in relation to resolution groups where a group is composed of more than one resolution group. The report shall consider the impact on the group's business model and recommend any proportionate and targeted measures that, in the view of the group-level resolution authority, are necessary or appropriate to remove those impediments.

Where an impediment to the resolvability of the group is due to a situation of a group entity referred to in the second subparagraph of Article 17(3), the group-level resolution authority shall notify its assessment of that impediment to the Union parent undertaking after consulting the resolution authority of the resolution entity and the resolution authorities of its subsidiary institutions.

Within four months of the date of receipt of the report, the Union parent undertaking may submit observations and propose to the group-level resolution authority alternative measures to remedy the impediments identified in the report.

or other instruments of ownership to be transferred and the decision on the value of any consideration to be paid to the institution under resolution or, as the case may be, to the owners of the shares or other instruments of ownership;

when the sale of business tool is applied, to inform the decision on the assets, rights, liabilities or shares or other instruments of ownership to be transferred and to inform the resolution authority's understanding of what constitutes commercial terms for the purposes of Article 38;

in all cases, to ensure that any losses on the assets of the institution or entity referred to in point (b), (c) or (d) of Article 1(1) are fully recognised at the moment the resolution tools are applied or the power to write down or convert relevant capital instruments and eligible liabilities in accordance with Article 59 is exercised.

Without prejudice to the Union State aid framework, where applicable, the valuation shall be based on prudent assumptions, including as to rates of default and severity of losses. The valuation shall not assume any potential future provision of extraordinary public financial support or central bank emergency liquidity assistance or any central bank liquidity assistance provided under non-standard collateralisation, tenor and interest rate terms to the institution or entity referred to in point (b), (c) or (d) of Article 1(1) from the point at which resolution action is taken or the power to write down or convert relevant capital instruments and eligible liabilities in accordance with Article 59 is exercised. Furthermore, the valuation shall take account of the fact that, if any resolution tool is applied:

- the resolution authority and any financing arrangement acting pursuant to Article 101 may recover any reasonable expenses properly incurred from the institution under resolution, in accordance with Article 37(7);
- the resolution financing arrangement may charge interest or fees in respect of any loans or guarantees provided to the institution under resolution, in accordance with Article 101.

The valuation shall be supplemented by the following information as appearing in the accounting books and records of the institution or entity referred to in point (b), (c) or (d) of Article 1(1):

- an updated balance sheet and a report on the financial position of the institution or entity referred to in point (b), (c) or (d) of Article 1(1);
- an analysis and an estimate of the accounting value of the assets;
- the list of outstanding on balance sheet and off balance sheet liabilities shown in the books and records of the institution or entity referred to in point (b), (c) or (d) of Article 1(1), with an indication of the respective credits and priority levels under the applicable insolvency law.

Where appropriate, to inform the decisions referred to in points (e) and (f) of paragraph 4, the information in point (b) of paragraph 6 may be complemented by an analysis and estimate of the value of the assets and liabilities of the institution or entity referred to in point (b), (c) or (d) of Article 1(1) on a market value basis.

The valuation shall indicate the subdivision of the creditors in classes in accordance with their priority levels under the applicable insolvency law and an estimate of the treatment that each class of shareholders and creditors would have been expected to receive, if the institution or entity referred to in point (b), (c) or (d) of Article 1(1) were wound up under normal insolvency proceedings.

That estimate shall not affect the application of the no creditor worse off principle to be carried out under Article 74.

Where due to the urgency in the circumstances of the case it is not possible to comply with the requirements in paragraphs 6 and 8 or paragraph 2 applies, a provisional valuation shall be carried out. The provisional valuation shall comply with the requirements in paragraph 3 and in so far as reasonably practicable in the circumstances with the requirements of paragraphs 1, 6 and 8.

The provisional valuation referred to in this paragraph shall include a buffer for additional losses, with appropriate justification.

A valuation that does not comply with all the requirements laid down in this Article shall be considered to be provisional until an independent person has carried out a valuation that is fully compliant with all the requirements laid down in this Article. That ex-post definitive valuation shall be carried out as soon as practicable. It may be carried out either separately from the valuation referred to in Article 74, or simultaneously with and by the same independent person as that valuation, but shall be distinct from it.

The purposes of the ex-post definitive valuation shall be:

- to ensure that any losses on the assets of the institution or entity referred to in point (b), (c) or (d) of Article 1(1) are fully recognised in the books of accounts of the institution or entity referred to in point (b), (c) or (d) of Article 1(1);
- to inform a decision to write back creditors' claims or to increase the value of the consideration paid, in accordance with paragraph 11.

In the event that the ex-post definitive valuation's estimate of the net asset value of the institution or entity referred to in point (b), (c) or (d) of Article 1(1) is higher than the provisional valuation's estimate of the net asset value of the institution or entity referred to in point (b), (c) or (d) of Article 1(1), the resolution authority may:

- exercise its power to increase the value of the claims of creditors or owners of relevant capital instruments which have been written down under the bail-in tool;
- instruct a bridge institution or asset management vehicle to make a further payment of consideration in respect of the assets, rights, liabilities to the institution under resolution, or as the case may be, in respect of the shares or instruments of ownership to the owners of the shares or other instruments of ownership.

Notwithstanding paragraph 1, a provisional valuation conducted in accordance with paragraphs 9 and 10 shall be a valid basis for resolution authorities take resolution actions, including taking control of a failing institution or entity referred to in point (b), (c) or (d) of Article 1(1), or to exercise the write down or conversion power of capital instruments and eligible liabilities in accordance with Article 59.

The valuation shall be an integral part of the decision to apply a resolution tool or exercise a resolution power, or the decision to exercise the write down or conversion power of capital instruments and eligible liabilities in accordance with Article 59. The valuation itself shall not be subject to a separate right of appeal but may be subject to an appeal together with the decision in accordance with Article 85.

Member States shall ensure that if the competent authority of that institution has not completed the assessment referred to in paragraph 8 from the date of transfer of shares or other instruments of ownership in the application of the sale of business tool by the resolution authority, the following provisions shall apply:

- such a transfer of shares or other instruments of ownership to the acquirer shall have immediate legal effect;
- during the assessment period and during any divestment period provided by point (f), the acquirer's voting rights attached to such shares or other instruments of ownership shall be suspended and vested solely in the resolution authority, which shall have no obligation to exercise any such voting rights and which shall have no liability whatsoever for exercising or refraining from exercising any such voting rights;
- during the assessment period and during any divestment period provided by point (f), the penalties and other measures for infringing the requirements for acquisitions or disposals of qualifying holdings contemplated by Articles 66, 67 and 68 of Directive 2013/36/EU shall not apply to such a transfer of shares or other instruments of ownership;

- if the acquirer does not complete such a divestment within the divestment period established by the resolution authority, then the competent authority, with the consent of the resolution authority, may impose on the acquirer penalties and other measures for infringing the requirements for acquisitions or disposals of qualifying holdings contemplated by Articles 66, 67, and 68 of Directive 2013/36/EU.

Transfers made by virtue of the sale of business tool shall be subject to the safeguards referred to in Chapter VII of Title IV.

For the purposes of exercising the rights to provide services or to establish itself in another Member State in accordance with Directive 2013/36/EU or Directive 2014/65/EU, the purchaser shall be considered to be a continuation of the institution under resolution, and may continue to exercise any such right that was exercised by the institution under resolution in respect of the assets, rights or liabilities transferred.

Member States shall ensure that the purchaser referred to in paragraph 1 may continue to exercise the rights of membership and access to payment, clearing and settlement systems, stock exchanges, investor compensation schemes and deposit guarantee schemes of the institution under resolution, provided that it meets the membership and participation criteria for participation in such systems.

Notwithstanding the first subparagraph, Member States shall ensure that:

- access is not denied on the ground that the purchaser does not possess a rating from a credit rating agency, or that rating is not commensurate to the rating levels required to be granted access to the systems referred to in the first subparagraph;
- where the purchaser does not meet the membership or participation criteria for a relevant payment, clearing or settlement system, stock exchange, investor compensation scheme or deposit guarantee scheme, the rights referred to in the first subparagraph are exercised for such a period of time as may be specified by the resolution authority, not exceeding 24 months, renewable on application by the purchaser to the resolution authority.

	<p>&lt;ol class="crrNumList"&gt; &lt;li&gt;&lt;p&gt;In order to give effect to the bridge institution tool and having regard to the need to maintain critical functions in the bridge institution, Member States shall ensure that resolution authorities have the power to transfer to a bridge institution:&lt;/p&gt; &lt;ol class="crrCharList"&gt; &lt;li&gt;shares or other instruments of ownership issued by one or more institutions under resolution;&lt;/li&gt; &lt;li&gt;all or any assets, rights or liabilities of one or more institutions under resolution.&lt;/li&gt; &lt;/ol&gt;Subject to Article 85, the transfer referred to in the first subparagraph may take place without obtaining the consent of the shareholders of the institutions under resolution or any third party other than the bridge institution, and without complying with any procedural requirements under company or securities law.&lt;/li&gt; &lt;li&gt;&lt;p&gt;The bridge institution shall be a legal person that meets all of the following requirements:&lt;/p&gt; &lt;ol class="crrCharList"&gt; &lt;li&gt;it is wholly or partially owned by one or more public authorities which may include the resolution authority or the resolution financing arrangement and is controlled by the resolution authority;&lt;/li&gt; &lt;li&gt;it is created for the purpose of receiving and holding some or all of the shares or other instruments of ownership issued by an institution under resolution or some or all of the assets, rights and liabilities of one or more institutions under resolution with a view to maintaining access to critical functions and selling the institution or entity referred to in point (b), (c) or (d) of Article 1(1).&lt;/li&gt; &lt;/ol&gt;The application of the bail-in tool for the purpose referred to in point (b) of Article 43(2) shall not</p>		

interfere with the ability of the resolution authority to control the bridge institution.

When applying the bridge institution tool, the resolution authority shall ensure that the total value of liabilities transferred to the bridge institution does not exceed the total value of the rights and assets transferred from the institution under resolution or provided by other sources.

Subject to Article 37(7), any consideration paid by the bridge institution shall benefit:

- the owners of the shares or instruments of ownership, where the transfer to the bridge institution has been effected by transferring shares or instruments of ownership issued by the institution under resolution from the holders of those shares or instruments to the bridge institution;
- the institution under resolution, where the transfer to the bridge institution has been effected by transferring some or all of the assets or liabilities of the institution under resolution to the bridge institution.

When applying the bridge institution tool, the resolution authority may exercise the transfer power more than once in order to make supplemental transfers of shares or other instruments of ownership issued by an institution under resolution or, as the case may be, assets, rights or liabilities of the institution under resolution.

Following an application of the bridge institution tool, the resolution authority may:

- transfer rights, assets or liabilities back from the bridge institution to the institution under resolution, or the shares or other instruments of ownership back to their original owners, and the institution under resolution or original owners shall be obliged to take back any such assets, rights or liabilities, or shares or other instruments of ownership, provided that the conditions laid down in paragraph 7 are met;
- transfer, shares or other instruments of ownership, or assets, rights or liabilities from the bridge institution to a third party.

Resolution authorities may transfer shares or other instruments of ownership, or assets, rights or liabilities back from the bridge institution in one of the following circumstances:

- the possibility that the specific shares or other instruments of ownership, assets, rights or liabilities might be transferred back is stated expressly in the instrument by which the transfer was made;
- the specific shares or other instruments of ownership, assets, rights or liabilities do not in fact fall within the classes of, or meet the conditions for transfer of shares or other instruments of ownership, assets, rights or liabilities specified in the instrument by which the transfer was made.

Such a transfer back may be made within any period, and shall comply with any other conditions, stated in that instrument for the relevant purpose.

Transfers between the institution under resolution, or the original owners of shares or other instruments of ownership, on the one hand, and the bridge institution on the other, shall be subject to the safeguards referred to in Chapter VII of Title IV.

For the purposes of exercising the rights to provide services or to establish itself in another Member State in accordance with Directive 2013/36/EU or Directive 2014/65/EU, a bridge institution shall be considered to be a continuation of the institution under resolution, and may continue to exercise any such right that was exercised by the institution under resolution in respect of the assets, rights or liabilities transferred.

For other purposes, resolution authorities may require that a bridge institution be considered to be a continuation of the institution under resolution, and be able to continue to exercise any right that was exercised by the institution under resolution in respect of the assets, rights or liabilities transferred.

Member States shall ensure that the bridge institution may continue to exercise the rights of membership and access to payment, clearing and settlement systems, stock exchanges, investor compensation schemes and deposit guarantee schemes of the institution under resolution, provided that it meets the membership and participation criteria for participation in such systems.

Notwithstanding the first subparagraph, Member States shall ensure that:

- access is not denied on the ground that the bridge institution does not possess a rating from a credit rating agency, or that rating is not commensurate to the rating levels required to be granted access to the systems referred to in the first subparagraph;
- where the bridge institution does not meet the membership or participation criteria for a relevant payment, clearing or settlement system, stock exchange, investor compensation scheme or deposit guarantee scheme, the rights referred to in the first subparagraph are exercised for such a period of time as may be specified by the resolution authority, not exceeding 24 months, renewable on application by the bridge institution to the resolution authority.

**Point (a) of the first subparagraph** shall not prevent resolution authorities, where appropriate, from exercising those powers in relation to any amount of a deposit that exceeds the coverage level provided for in Article 6 of Directive

subparagraph of this paragraph to ensure the effective implementation of the resolution strategy.

Where a resolution authority decides to exclude or partially exclude a bail-inable liability or class of bail-inable liabilities under this paragraph, the level of write down or conversion applied to other bail-inable liabilities may be increased to take account of such exclusions, provided that the level of write down and conversion applied to other bail-inable liabilities complies with the principle in point (g) of Article 34(1).

Where a resolution authority decides to exclude or partially exclude a bail-inable liability or class of bail-inable liabilities pursuant to this Article, and the losses that would have been borne by those liabilities have not been passed on fully to other creditors, the resolution financing arrangement may make a contribution to the institution under resolution to do one or both of the following:

- cover any losses which have not been absorbed by bail-inable liabilities and restore the net asset value of the institution under resolution to zero in accordance with point (a) of Article 46(1);
- purchase shares or other instruments of ownership or capital instruments in the institution under resolution, in order to recapitalise the institution in accordance with point (b) of Article 46(1).

The resolution financing arrangement may make a contribution referred to in paragraph 4 only where:

- a contribution to loss absorption and recapitalisation equal to an amount not less than 8 % of the total liabilities including own funds of the institution under resolution, measured at the time of resolution action in accordance with the valuation provided for in Article 36, has been made by the shareholders and the holders of other instruments of ownership, the holders of relevant capital instruments and other bail-inable liabilities through write down, conversion or otherwise; and
- the contribution of the resolution financing arrangement does not exceed 5 % of the total liabilities including own funds of the institution under resolution.

The contribution of the resolution financing arrangement referred to in paragraph 4 may be financed by:

- the amount available to the resolution financing arrangement which has been raised through contributions by institutions and Union branches in accordance with Article 100(6) and Article 103;
- the amount that can be raised through ex-post contributions in accordance with Article 104 within three years; and
- where the amounts referred to (a) and (b) of this paragraph are insufficient, amounts raised from alternative financing sources in accordance with Article 105.

In extraordinary circumstances, the resolution authority may seek further funding from alternative financing sources after:

- the 5 % limit specified in paragraph 5(b) has been reached; and
- all unsecured, non-preferred liabilities, other than eligible deposits, have been written down or converted in full.

As an alternative or in addition, where the conditions laid down in the first subparagraph are met, the resolution financing arrangement may make a contribution from resources which have been raised through ex-ante contributions in accordance with Article 100(6) and Article 103 and which have not yet been used.

By way of derogation from paragraph 5 (a), the resolution financing arrangement may also make a contribution as referred to in paragraph 4 provided that:

- the contribution to loss absorption and recapitalisation referred to in point (a) of paragraph 5 is equal to an amount not less than 20 % of the risk weighted assets of the institution concerned;
- the resolution financing arrangement of the Member State concerned has at its disposal, by way of ex-ante contributions (not including contributions to a deposit guarantee scheme) raised in accordance with Article 100(6) and Article 103, an amount which is at

least equal to 3 % of covered deposits of all the credit institutions authorised in the territory of that Member State; and </li> <li>the institution concerned has assets below EUR 900 billion on a consolidated basis.</li>

under paragraph 3 may be applied either to completely exclude a liability from write down or to limit the extent of the write down applied to that liability.

</i>The Commission shall be empowered to adopt delegated acts in accordance with Article 115 in order to specify further the circumstances when exclusion is necessary to achieve the objectives specified in paragraph 3 of this Article.</i>

- <li>the seller documents the suitability in accordance with Article 25(6) of Directive 2014/65/EU.

Notwithstanding the first subparagraph, Member States may provide that the conditions laid down in points (a) to (c) of that subparagraph shall apply to sellers of other instruments qualifying as own funds or bail-inable liabilities.

Where the conditions set out in paragraph 1 are fulfilled and the financial instrument portfolio of that retail client does not, at the time of the purchase, exceed EUR 500000 the seller shall ensure, on the basis of the information provided by the retail client in accordance with paragraph 3, that both of the following conditions are met at the time of the purchase:

- <li>the retail client does not invest an aggregate amount exceeding 10 % of that client's financial instrument portfolio in liabilities referred to in paragraph 1;

For resolution entities that are subject to Article 45c(6), the second subparagraph of this paragraph does not apply.

For resolution entities that are neither G-SIIs nor resolution entities that are subject to Article 45c(5) or (6), the resolution authority may decide that a part of the requirement referred to in Article 45e up to the greater of 8 % of the total liabilities, including own funds, of the entity and the formula referred to in paragraph 7, shall be met using own funds, subordinated eligible instruments, or liabilities as referred to in paragraph 3 of this Article, provided that the following conditions are met:

- non-subordinated liabilities referred to in paragraphs 1 and 2 of this Article have the same priority ranking in the national insolvency hierarchy as certain liabilities that are excluded from the application of write down and conversion powers in accordance with Article 44(2) or Article 44(3);
- there is a risk that, as a result of a planned application of write-down and conversion powers to non-subordinated liabilities that are not excluded from the application of write down and conversion powers in accordance with Article 44(2) or Article 44(3), creditors whose claims arise from those liabilities incur greater

losses than they would incur in a winding up under normal insolvency proceedings;

the amount of own funds and other subordinated liabilities does not exceed the amount necessary to ensure that the creditors referred to in point (b) do not incur losses above the level of losses that they would otherwise have incurred in the winding-up under normal insolvency proceedings.

Where the resolution authority determines that, within a class of liabilities which includes eligible liabilities, the amount of the liabilities that are excluded or reasonably likely to be excluded from the application of write down and conversion powers in accordance with Article 44(2) or Article 44(3) totals more than 10 % of that class, the resolution authority shall assess the risk referred to in point (b) of the first subparagraph of this paragraph.

For the purposes of paragraphs 4, 5 and 7, derivative liabilities shall be included in total liabilities on the basis that full recognition is given to counterparty netting rights.

The own funds of a resolution entity that are used to comply with the combined buffer requirement shall be eligible to comply with the requirements referred to in paragraphs 4, 5 and 7.

By derogation from paragraph 4 of this Article, the resolution authority may decide that the requirement referred to in Article 45e of this Directive shall be met by resolution entities that are G-SIIs or resolution entities that are subject to Article 45c(5) or (6) of this Directive using own funds, subordinated eligible instruments, or liabilities as referred to in paragraph 3 of this Article, to the extent that, due to the obligation of the resolution entity to comply with the combined buffer requirement and the requirements referred to in Article 92a of Regulation (EU) No 575/2013, Article 45c(5) and Article 45 e of this Directive, the sum of those own funds, instruments and liabilities does not exceed the greater of:

8 % of total liabilities, including own funds, of the

entity; or</li> <li>the amount resulting from the application of the formula  $Ax^2+Bx^2+C$ , where A, B and C are the following amounts:

- A = the amount resulting from the requirement referred to in point (c) of Article 92(1) of Regulation (EU) No 575/2013;
- B = the amount resulting from the requirement referred to in Article 104a of Directive 2013/36/EU;
- C = the amount resulting from the combined buffer requirement.

</li>Resolution authorities may exercise the power referred to in paragraph 7 of this Article with respect to resolution entities that are G-SIIs or that are subject to Article 45c(5) or (6), and that meet one of the conditions set out in the second subparagraph of this paragraph, up to a limit of 30 % of the total number of all resolution entities that are G-SIIs or that are subject to Article 45c(5) or (6) for which the resolution authority determines the requirement referred to in Article 45e.

The conditions shall be considered by resolution authorities as follows:

- substantive impediments to resolvability have been identified in the preceding resolvability assessment and either:
- no remedial action has been taken following the application of the measures referred to in Article 17(5) in the timeline required by the resolution authority; or
- the identified substantive impediments cannot be addressed using any of the measures referred to in Article 17(5), and the exercise of the power referred to in paragraph 7 of this Article would partially or fully compensate for the negative impact of the substantive impediments on resolvability;
- the resolution authority considers that the feasibility and credibility of the resolution entity's preferred resolution strategy is limited, taking into account the entity's size, its interconnectedness, the nature, scope, risk and complexity of its activities, its legal

status and its shareholding structure;

- the requirement referred to in Article 104a of Directive 2013/36/EU reflects the fact that the resolution entity that is a G-SII or that is subject to Article 45c(5) or (6) of this Directive is, in terms of riskiness, among the top 20 % of institutions for which the resolution authority determines the requirement referred to in Article 45(1) of this Directive.

For the purposes of the percentages referred to in the first and second subparagraphs, the resolution authority shall round the number resulting from the calculation up to the closest whole number.

Member States may, by taking into account the specificities of their national banking sector, including in particular the number of resolution entities that are G-SIIs or that are subject to Article 45c(5) or (6) for which the national resolution authority determines the requirement referred to in Article 45e, set the percentage referred to in the first subparagraph at a level higher than 30 %.

- The resolution authority shall only take the decisions referred to in paragraph 5 or 7 after consulting the competent authority.

When taking those decisions, the resolution authority shall also take into account:

- the depth of the market for the resolution entity's own funds instruments and subordinated eligible instruments, the pricing of such instruments, where they exist, and the time needed to execute any transactions necessary for the purpose of complying with the decision;
- the amount of eligible liabilities instruments that meet all of the conditions referred to in Article 72a of Regulation (EU) No 575/2013 that have a residual maturity below one year as of the date of the decision, with a view to making quantitative adjustments to the requirements referred to in paragraphs 5 and 7 of this Article;
- the availability and the amount of instruments that meet all of the conditions referred to in Article 72a of Regulation (EU) No 575/2013 other than point (d) of Article 72b(2) of that

				<p>Regulation;</p> <p>&lt;/li&gt; &lt;li&gt;whether the amount of liabilities that are excluded from the application of write down and conversion powers in accordance with Article 44(2) or (3) and that, in normal insolvency proceedings, rank equally with or below the highest ranking eligible liabilities is significant in comparison to the own funds and eligible liabilities of the resolution entity. 				<p>&lt;ol class="crrNumList"&gt;&lt;li&gt; &lt;p&gt;The requirement referred to in Article 45(1) shall be determined by the resolution authority, after consulting the competent authority, on the basis of the following criteria:&lt;/p&gt;&lt;ol class="crrCharList"&gt;&lt;li&gt;the need to ensure that the resolution group can be resolved by the application of the resolution tools to the resolution entity, including, where appropriate, the bail-in tool, in a way that meets the resolution objectives;&lt;/li&gt;&lt;li&gt;the need to ensure, where appropriate, that the resolution entity and its subsidiaries that are institutions or entities referred to in points (b), (c) and (d) of Article 1(1) but are not resolution entities have sufficient own funds and eligible liabilities to ensure that, if the bail-in tool or write down and conversion powers, respectively, were to be applied to them, losses could be absorbed and that it is possible to restore the total capital ratio and, as applicable, the leverage ratio, of the relevant entities to a level necessary to enable them to continue to comply with the conditions for authorisation and to carry on the activities for which they are authorised under</p>

The requirement referred to in Article 45(1) for an entity referred to in this paragraph shall be determined in accordance with Articles 45h and 89, where applicable, and on the basis of the requirements laid down in Article 45c.

The requirement referred to in Article 45(1) for entities referred to in paragraph 1 of this Article shall be met using one or more of the following:

- liabilities;
- that are issued to and bought by the resolution entity, either directly or indirectly through other entities in the same resolution group that bought the liabilities from the entity that is subject to this Article, or are issued to and bought by an existing shareholder that is not part of the same resolution group as long as the exercise of write down or conversion powers in accordance with Articles 59 to 62 does not affect the control of the subsidiary by the resolution entity;
- that fulfil the eligibility criteria referred to in Article 72a of Regulation (EU) No 575/2013, except for points (b), (c), (k), (l) and (m) of Article 72b(2) and Article 72b(3) to (5) of that Regulation;
- that rank, in normal insolvency proceedings, below liabilities that do not meet the condition referred to in point (i) and that are not eligible for own funds requirements;

- the guarantee is provided for at least an amount that is equivalent to the amount of the requirement for which it substitutes;
- the guarantee is triggered when the subsidiary is unable to pay its debts or other liabilities as they fall due, or a determination has been made in accordance with Article 59(3) in respect of the subsidiary, whichever is the earliest;
- the guarantee is collateralised through a financial collateral arrangement as defined in point (a) of Article 2(1) of Directive 2002/47/EC for at least 50 % of its amount;
- the collateral backing the guarantee fulfils the requirements of Article 197 of Regulation (EU) No 575/2013, which, following appropriately conservative haircuts, is sufficient to cover the amount collateralised as referred to in point (c);
- the collateral backing the guarantee is unencumbered and, in particular, is not used as collateral to back any other guarantee;
- the collateral has an effective maturity that fulfils the same maturity condition as that referred to in Article 72c(1) of Regulation (EU) No 575/2013; and
- there are no legal, regulatory or operational barriers to the transfer of the collateral from the resolution entity to the relevant subsidiary, including where resolution action is taken in respect of the resolution entity.

For the purposes of point (g) of the first subparagraph, at the request of the resolution authority, the resolution entity shall provide an independent written and reasoned legal opinion or shall otherwise satisfactorily demonstrate that there are no legal, regulatory or operational barriers to the transfer of collateral from the resolution entity to the relevant subsidiary.

EBA shall develop draft regulatory technical standards further specifying methods to avoid that instruments recognised for the purposes of this Article indirectly subscribed, in part or in full, by the resolution entity hamper the smooth

		The resolution authority of the resolution entity, the group-level resolution authority, where different from the former, and the resolution authorities responsible for the subsidiaries of a resolution group that are subject to the requirement referred to in Article 45f on an individual basis shall do everything within their power to reach a joint decision on:		
		the amount of the requirement applied at the consolidated resolution group level for each resolution entity; and		
		the amount of the requirement applied on an individual basis to each entity of a resolution group which is not a resolution entity.		
		The joint decision shall ensure compliance with Articles 45e and 45f and it shall be fully reasoned and provided to:		
		the resolution entity by its resolution authority;		
		the entities of a resolution group which are not a resolution entity by the resolution authorities of those entities;		
		the Union parent undertaking of the group by the resolution authority of the resolution entity, when that Union parent undertaking is not itself a resolution entity from the same resolution group.		
		The joint decision taken in accordance with this Article may provide that, where consistent with the resolution strategy and sufficient instruments complying with Article 45f(2) have not been bought directly or indirectly by the		

resolution entity, the requirements referred to in Article 45c(7) are partially met by the subsidiary in compliance with Article 45f(2) with instruments issued to and bought by entities not belonging to the resolution group.

Where more than one G-SII entity belonging to the same G-SII are resolution entities, the resolution authorities referred to in paragraph 1 shall discuss and, where appropriate and consistent with the G-SII's resolution strategy, agree on the application of Article 72e of Regulation (EU) No 575/2013 and any adjustment to minimise or eliminate the difference between the sum of the amounts referred to in point (a) of Article 45d(4) and Article 12a of Regulation (EU) No 575/2013 for individual resolution entities and the sum of the amounts referred to in point (b) of Article 45d(4) and Article 12a of Regulation (EU) No 575/2013.

Such an adjustment may be applied subject to the following:

- the adjustment may be applied in respect of differences in the calculation of the total risk exposure amounts between the relevant Member States by adjusting the level of the requirement;

The sum of the amounts referred to in point (a) of Article 45d(4) of this Directive and Article 12a of Regulation (EU) No 575/2013 for individual resolution entities shall not be lower than the sum of the amounts referred to in point (b) of Article 45d(4) of this Directive and Article 12a of Regulation (EU) No 575/2013.

In the absence of such a joint decision within four months, a decision shall be taken in accordance with paragraphs 4 to 6.

The deadline for institutions and entities to comply with the</p>		

requirements in Articles 45e or 45f or the requirements that result from the application of Article 45b(4), (5) or (7) shall be 1 January 2024.

The resolution authority shall determine intermediate target levels for the requirements in Articles 45e or 45f or for requirements that result from the application of Article 45b(4), (5) or (7), as appropriate, that institutions or entities referred to in points (b), (c) and (d) of Article 1(1) shall comply with at 1 January 2022. The intermediate target levels, as a rule, shall ensure a linear build-up of own funds and eligible liabilities towards the requirement.

The resolution authority may set a transitional period that ends after 1 January 2024 where duly justified and appropriate on the basis of the criteria referred to in paragraph 7, taking into consideration:

- the development of the entity's financial situation;
- the prospect that the entity will be able to ensure compliance in a reasonable timeframe with the requirements in Article 45e or 45f or with a requirement that results from the application of Article 45b(4), (5) or (7); and
- whether the entity is able to replace liabilities that no longer meet the eligibility or maturity criteria laid down in Articles 72b and 72c of Regulation (EU) No 575/2013, and Article 45b or Article 45f(2) of this Directive, and if not, whether that inability is of an idiosyncratic nature or is due to market-wide disturbance.

The deadline for resolution entities to comply with the minimum level of the requirements referred to in Article 45c(5) or (6) shall be 1 January 2022.

The minimum levels of the requirements referred to in Article 45c(5) and (6) shall not apply within the two-year period following the date:

- on which the resolution authority has applied the bail-in tool; or
- on which the resolution entity has put in place an alternative private sector measure as referred to in point (b) of Article 32(1) by which capital instruments and other

liabilities have been written down or converted into Common Equity Tier 1 instruments, or on which write down or conversion powers, in accordance with Article 59, have been exercised in respect of that resolution entity, in order to recapitalise the resolution entity without the application of resolution tools.

The requirements referred to in Article 45b(4) and (7) as well as Article 45c(5) and (6), as applicable, shall not apply within the three-year period following the date on which the resolution entity or the group of which the resolution entity is part has been identified as a G-SII, or the resolution entity starts to be in the situation referred to in Article 45c(5) or (6).

By way of derogation from Article 45(1), resolution authorities shall determine an appropriate transitional period within which to comply with the requirements of Articles 45e or 45f, or a requirement resulting from the application of Article 45b(4), (5) or (7), as appropriate, for institutions or entities referred to in points (b), (c) and (d) of Article 1(1) to which resolution tools or the write-down or conversion power referred to in Article 59 have been applied.

For the purposes of paragraphs 1 to 5, resolution authorities shall communicate to the institution or entity referred to in points (b), (c) and (d) of Article 1(1) a planned minimum requirement for own funds and eligible liabilities for each 12-month period during the transitional period, with a view to facilitating a gradual build-up of its loss-absorbing and recapitalisation capacity. At the end of the transitional period, the minimum requirement for own funds and eligible liabilities shall be equal to the amount determined under Article 45b(4), (5) or (7), Article 45c(5) or (6), Article 45e or Article 45f, as applicable.

When determining the transitional periods, resolution authorities shall take into account:

- the prevalence of deposits and the absence of debt instruments in the funding model;
- the access to the capital markets for eligible liabilities;
- the extent to which

<p>the resolution entity relies on Common Equity Tier 1 capital to meet the requirement referred to in Article 45e.</p> <p>Subject to paragraph 1, resolution authorities shall not be prevented from subsequently revising either the transitional period or any planned minimum requirement for own funds and eligible liabilities communicated under paragraph 6.</p>

The group-level resolution authority shall communicate the plan to other resolution authorities concerned and to EBA.

In exceptional circumstances, and if it is necessary for achieving the resolution objectives, the resolution authority may extend the period in paragraph 1 up to a maximum of two months since the application of the bail-in tool.

Where the business reorganisation plan is required to be notified within the Union State aid framework, the resolution authority may extend the period in paragraph 1 up to a maximum of two months since the application of the bail-in tool or until the deadline laid down by the Union State aid framework, whichever occurs earlier.

A business reorganisation plan shall set out measures aiming to restore the long-term viability of the institution or entity referred to in point (b), (c) or (d) of Article 1(1) or parts of its business within a reasonable timescale. Those measures shall be based on realistic assumptions as to the economic and financial market conditions under which the institution or entity referred to in point (b), (c) or (d) of Article 1(1) will operate.

The business reorganisation plan shall take account, inter alia, of the current state and future prospects of the financial markets, reflecting best-case and worst-case assumptions, including a combination of events allowing the identification of the institution's main vulnerabilities. Assumptions shall be

compared with appropriate sector-wide benchmarks.

A business reorganisation plan shall include at least the following elements:

- a detailed diagnosis of the factors and problems that caused the institution or entity referred to in point (b), (c) or (d) of Article 1(1) to fail or to be likely to fail, and the circumstances that led to its difficulties;
- a description of the measures aiming to restore the long-term viability of the institution or entity referred to in point (b), (c) or (d) of Article 1(1) that are to be adopted;
- a timetable for the implementation of those measures.

Measures aiming to restore the long-term viability of an institution or entity referred to in point (b), (c) or (d) of Article 1(1) may include:

- the reorganisation of the activities of the institution or entity referred to in point (b), (c) or (d) of Article 1(1);
- changes to the operational systems and infrastructure within the institution;
- the withdrawal from loss-making activities;
- the restructuring of existing activities that can be made competitive;
- the sale of assets or of business lines.

Within one month of the date of submission of the business reorganisation plan, the relevant resolution authority shall assess the likelihood that the plan, if implemented, will restore the long-term viability of the institution or entity referred to in point (b), (c) or (d) of Article 1(1). The assessment shall be completed in agreement with the relevant competent authority.

If the resolution authority and the competent authority are satisfied that the plan would achieve that objective, the resolution authority shall approve the plan.

If the resolution authority is not satisfied that the plan would achieve the objective referred to in paragraph 7, the resolution authority, in agreement with the competent authority, shall notify the management body or the person or persons appointed in accordance with Article

Within two weeks from the date of receipt of the notification referred to in paragraph 8, the management body or the person or persons appointed in accordance with Article 72(1) shall submit an amended plan to the resolution authority for approval. The resolution authority shall assess the amended plan, and shall notify the management body or the person or persons appointed in accordance with Article 72(1) within one week whether it is satisfied that the plan, as amended, addresses the concerns notified or whether further amendment is required.

The management body or the person or persons appointed in accordance with Article 72(1) shall implement the reorganisation plan as agreed by the resolution authority and competent authority, and shall submit a report to the resolution authority at least every six months on progress in the implementation of the plan.

The management body or the person or persons appointed in accordance with Article 72(1) shall revise the plan if, in the opinion of the resolution authority with the agreement of the competent authority, it is necessary to achieve the aim referred to in paragraph 4, and shall submit any such revision to the resolution authority for approval.

EBA shall develop draft regulatory technical standards to specify further:

- the minimum elements that should be included in a business reorganisation plan pursuant to paragraph 5; and

**ARTICLE**

limited to because the group has incurred or is likely to incur losses that will deplete all or a significant amount of its own funds.

A relevant capital instrument issued by a subsidiary shall not be written down to a greater extent or converted on worse terms pursuant to point (c) of paragraph 3 than equally ranked capital instruments at the level of the parent undertaking which have been written down or converted.

Where an appropriate authority makes a determination referred to in paragraph 3 of this Article, it shall immediately notify the resolution authority responsible for the institution or for the entity referred to in point (b), (c) or (d) of Article 1(1) in question, if different.

Before making a determination referred to in point (c) of paragraph 3 of this Article in relation to a subsidiary that issues relevant capital instruments that are recognised for the purposes of meeting the own funds requirements on an individual and on a consolidated basis, the appropriate authority shall comply with the notification and consultation requirements laid down in Article 62.

Before exercising the power to write down or convert capital instruments, or eligible liabilities as referred to in paragraph 1a, resolution authorities shall ensure that a valuation of the assets and liabilities of the institution or the entity referred to in point (b), (c) or (d) of Article 1(1) is carried out in accordance with Article 36. That valuation shall form the basis of the calculation of the write down to be applied to the relevant capital instruments, or eligible liabilities as referred to in paragraph 1a in order to absorb losses and the level of conversion to be applied to relevant capital instruments, or eligible liabilities as referred to in paragraph 1a in order to recapitalise the institution or the entity referred to in point (b), (c) or (d) of Article 1(1).

When complying with the requirement laid down in Article 59, resolution authorities shall exercise the write down or conversion power in accordance with the priority of claims under normal insolvency proceedings, in a way that produces the following results:

Common Equity Tier 1 items are reduced first in proportion to the losses and to the extent of their capacity and the resolution authority takes one or both of the actions specified in Article 47(1) in respect of holders of Common Equity Tier 1 instruments;

the principal amount of Additional Tier 1 instruments is written down or converted into Common Equity Tier 1 instruments or both, to the extent required to achieve the resolution objectives set out in Article 31 or to the extent of the capacity of the relevant capital instruments, whichever is lower;

the principal amount of Tier 2 instruments is written down or converted into Common Equity Tier 1 instruments or both, to the extent required to achieve the resolution objectives set out in Article 31 or to the extent of the capacity of the relevant capital instruments, whichever is lower;

the principal amount of eligible liabilities referred to in Article 59(1a) is written down or converted into Common Equity Tier 1 instruments or both, to the extent required to achieve the resolution objectives set out in Article 31 or to the extent of the capacity of the relevant eligible liabilities, whichever is lower.

Where the principal amount of a relevant capital instrument, or an eligible liability as referred to in Article 59(1a) is written down:

the reduction of that principal amount shall be permanent, subject to any write up in accordance with the reimbursement mechanism in Article 46(3);

no liability to the holder of the relevant capital instrument, or of the eligible liability as referred to in Article 59(1a), shall remain under or in connection with that amount of the instrument, which has been written down, except for any liability already accrued, and any liability for damages that may arise as a result of an appeal challenging the legality of the exercise of the write down power;

no compensation is paid to any holder of the relevant capital instruments, or of the liabilities as referred to in Article 59(1a), other than in accordance with paragraph 3 of this Article.

In order to effect a conversion of relevant capital instruments, and eligible liabilities as referred to in Article 59(1a), under points (b), (c) and (d) of paragraph 1 of this Article, resolution authorities may require institutions and entities referred to in points (b), (c) and (d) of Article 1(1) to issue Common Equity Tier 1 instruments to the holders of the relevant capital instruments and such eligible liabilities. Relevant capital instruments and such liabilities may only be converted where the following conditions are met:

those Common Equity Tier 1 instruments are issued by the institution or the entity referred to in point (b), (c) or (d) of Article 1(1) or by a parent undertaking of the institution or the entity referred to in point (b), (c) or (d) of Article 1(1), with the agreement of the resolution authority of the institution or the entity referred to in points (b), (c) or (d) of Article 1(1) or; where relevant, of the resolution authority of the parent undertaking;

those Common Equity Tier 1 instruments are issued prior to any issuance of shares or other instruments of ownership by that institution or that entity referred to in point (b), (c) or (d) of Article 1(1) for the purposes of provision of own funds by the State or a government entity;

those Common Equity Tier 1 instruments are awarded and transferred without delay following the exercise of the conversion power;

the conversion rate that determines the number of Common Equity Tier 1 instruments that are provided in respect of each relevant capital instrument, or each eligible liability as referred to in Article 59(1a) complies with the principles set out in Article 50 and any guidelines developed by EBA pursuant to Article 50(4).

For the purposes of the provision of Common Equity Tier 1 instruments in accordance with paragraph 3, resolution authorities may require institutions and entities referred to in points (b), (c) and (d) of Article 1(1) to maintain at all times the necessary prior authorisation to issue the relevant number of Common Equity Tier 1 instruments.

Where an institution meets the conditions for resolution and the resolution authority decides to apply a resolution tool to that institution, the resolution authority shall comply with the requirement laid down in Article 59(3) before applying the resolution tool.

In such a case, all references to European resolution colleges in this Directive shall also be understood as references to those other groups or colleges.</p> <p>Subject to paragraphs 3 and 4 of this Article, the European resolution college shall otherwise function in accordance with Article 88.</p>	European resolution colleges	Article 89

## ARTICLE

provided for in Article 105 are not immediately accessible on reasonable terms.

Member States shall ensure that financing arrangements under their jurisdiction have the power to lend to other financing arrangements within the Union in the circumstances specified in paragraph 1.

Following a request under paragraph 1, each of the other financing arrangements in the Union shall decide whether to lend to the financing arrangement which has made the request. Member States may require that that decision is taken after consulting, or with the consent of, the competent ministry or the government. The decision shall be taken with due urgency.

The rate of interest, repayment period and other terms and conditions of the loans shall be agreed between the borrowing financing arrangement and the other financing arrangements which have decided to participate. The loan of every participating financing arrangement shall have the same interest rate, repayment period and other terms and conditions, unless all participating financing arrangements agree otherwise.

The amount lent by each participating resolution financing arrangement shall be pro rata to the amount of covered deposits in the Member State of that resolution financing arrangement, with respect to the aggregate of covered deposits in the Member States of participating resolution financing arrangements. Those rates of contribution may vary upon agreement of all participating financing arrangements.

An outstanding loan to a resolution financing arrangement of another Member State under this Article shall be treated as an asset of the resolution financing arrangement which provided the loan and may be counted towards that financing arrangement's target level.

Member States shall ensure that, in the case of a group resolution as referred to in Article 91 or Article 92, the national financing arrangement of each institution that is part of a group contributes to the financing of the group resolution in accordance with this Article.

For the purposes of paragraph 1, the group-level resolution authority, after consulting the resolution authorities of the institutions that are part of the group, shall propose, if necessary before taking any resolution action, a financing plan as part of the group resolution scheme provided for in Articles 91 and 92.

The financing plan shall be agreed in accordance with the decision-making procedure referred to in Articles 91 and 92.

The financing plan shall include:

- a valuation in accordance with Article 36 in respect of the affected group entities;
- the losses to be recognised by each affected group entity at the moment the resolution tools are exercised;
- for each affected group entity, the losses that would be suffered by each class of shareholders and creditors;
- any contribution that deposit guarantee schemes would be required to make in accordance with Article 109(1);
- the total contribution by resolution financing arrangements and the purpose and form of the contribution;
- the basis for calculating the amount that each of the national financing arrangements of the Member States where affected group entities are located is required to contribute to the financing of the group resolution in order to build up the total contribution referred to in point (e);
- the amount that the national financing arrangement of each affected group entity is required to contribute to the financing of the group resolution and the form of those contributions;
- the amount of borrowing that the financing arrangements of the Member States where the affected group entities are located, will contract from institutions, financial institutions and other third parties under Article 105;
- a timeframe for the use of the financing arrangements of the Member States where the affected group entities are located, which should be capable of being extended where appropriate.

The basis for apportioning the contribution referred to in point (e) of paragraph 3 shall be consistent with paragraph 5 of this Article and with the principles set out in the group resolution plan in accordance with point (f) of Article 12(3), unless otherwise agreed in the financing plan.

Unless agreed otherwise in the financing plan, the basis for calculating the contribution of each national financing arrangement shall in particular have regard to:

- the proportion of the group's risk-weighted assets held at institutions and entities referred to in points (b), (c) and (d) of Article 1(1) established in the Member State of that resolution financing arrangement;
- the proportion of the group's assets held at institutions and entities referred to in points (b), (c) and (d) of Article 1(1) established in the Member State of that resolution financing arrangement;
- the proportion of the losses, which have given rise to the need for group resolution, which originated in group entities under the supervision of competent authorities in the Member State of that resolution financing arrangement; and
- the proportion of the resources of the group financing arrangements which, under the financing plan, are expected to be used to benefit group entities established in the Member State of that resolution financing arrangement directly.

Member States shall establish rules and procedures in advance to ensure that each national financing arrangement can effect its contribution to the financing of group resolution immediately without prejudice to paragraph 2.

For the purpose of this Article, Member States shall ensure that group financing arrangements are allowed, under the conditions laid down in Article 105, to contract borrowings or other forms of support, from institutions, financial institutions or other third parties.

Member States shall ensure that national financing arrangements under their jurisdiction may guarantee any borrowing contracted by the group financing arrangements in accordance with paragraph 7.

Member States shall ensure that any proceeds or benefits that arise from the use of the group financing arrangements are allocated to national financing arrangements in accordance with their contributions to the financing of the resolution as established in paragraph 2.

SECTION C

Matters that the resolution authority is to consider when assessing the resolvability of an institution or group

When assessing the resolvability of an institution or group, the resolution authority shall consider the following:

When assessing the resolvability of a group, references to an institution shall be deemed to include any institution or entity referred to in point (c) or (d) of Article 1(1) within a group:

- the extent to which the institution is able to map core business lines and critical operations to legal persons;
- the extent to which legal and corporate structures are aligned with core business lines and critical operations;
- the extent to which there are arrangements in place to provide for essential staff, infrastructure, funding, liquidity and capital to support and maintain the core business lines and the critical operations;
- the extent to which the service agreements that the institution maintains are fully enforceable in the event of resolution of the institution;
- the extent to which the governance structure of the institution is adequate for managing and ensuring compliance with the institution’s internal policies with respect to its service level agreements;
- the extent to which the institution has a process for transitioning the services provided under service level agreements to third parties in the event of the separation of critical functions or of core business lines;
- the extent to which there are contingency plans and measures in place to ensure continuity in access to payment and settlement systems;
- the adequacy of the management information systems in ensuring that the resolution authorities are able to gather accurate and complete information regarding the core business lines and critical operations so as to facilitate rapid decision making;
- the capacity of the management information systems to provide the information essential for the effective resolution of the institution at all times even under rapidly changing conditions;
- the extent to which the institution has tested its management information systems under stress scenarios as defined by the resolution authority;
- the extent to which the institution can ensure the continuity of its management information systems both for the affected institution and the new institution in the case that the critical operations and core business lines are separated from the rest of the operations and business lines;
- the extent to which the institution has established adequate processes to ensure that it provides the resolution authorities with the information necessary to identify depositors and the amounts covered by the deposit guarantee schemes;
- where the group uses intra-group guarantees, the extent to which those guarantees are provided at market conditions and the risk management systems concerning those guarantees are robust;
- where the group engages in back-to-back transactions, the extent to which those transactions are performed at market conditions and the risk management systems concerning those transactions practices are robust;
- the extent to which the use of intra-group guarantees or back-to-back booking transactions increases contagion across the group;
- the extent to which the legal structure of the group inhibits the application of the resolution tools as a result of the number of legal persons, the complexity of the group structure or the difficulty in aligning business lines to group entities;
- the amount and type of bail-inable liabilities of the institution;
- where the assessment involves a mixed activity holding company, the extent to which the resolution of group entities that are institutions or financial institutions could have a negative impact on the non-financial part of the group;
- the existence and robustness of service level agreements;
- whether third-country authorities have the resolution tools necessary to support resolution actions by Union resolution authorities, and the scope for coordinated action between Union and third-country authorities;
- the feasibility of using resolution tools in such a way which meets the resolution objectives, given the tools available and the institution’s structure;
- the extent to which the group structure allows the resolution authority to resolve the whole group or one or more of its group entities without causing a significant direct or indirect adverse effect on the financial system, market confidence or the economy and with a view to maximising the value of the group as a whole;
- the arrangements and means through which resolution could be facilitated in the cases of groups that have subsidiaries established in different jurisdictions;
- the credibility of using resolution tools in such a way which meets the resolution objectives, given possible impacts on creditors, counterparties, customers and employees and possible actions that third-country authorities may take;
- the extent to which the impact of the institution’s resolution on the financial system and on financial markets’ confidence can be adequately evaluated;
- the extent to which the resolution of the institution could have a significant direct or indirect adverse effect on the financial system, market confidence or the economy;
- the extent to which contagion to other institutions or to the financial markets could be contained through the application of the resolution tools and powers;
- the extent to which the resolution of the institution could have a significant effect on the operation of payment and settlement systems.
